

IST NATIONAL CONSULTATION MEETING: DEVELOPMENT OF THE PATHWAY TO NDC 3.0

PAPUA NEW GUINEA, 04 MARCH 2025

NDC PARTNERSHIP

ndcpartnership.org

INTRODUCTION TO THE NDC PARTNERSHIP

NDC PARTNERSHIP

NDC PARTNERSHIP

A global coalition that brings together developed and developing countries and institutions delivering on ambitious climate action to help achieve the Paris Agreement, advancing sustainable development

Reduce Greenhouse Gas (GHG) Emissions

Consistently increasing the quality and ambition of Nationally Determined Contributions (NDCs) while effectively implementing climate action.

Enhance Adaptive Capacity and Resilience of Countries

Responding to country-specific vulnerabilities and climate impacts to address short-mid-and long-term needs.

Mobilize Resources

Providing expertise, technical assistance, technology transfer and effective mobilization of finance to implement climate and development commitments.

NDC PARTNERSHIP

OUR STRENGTH

BROAD AND DIVERSE MEMBERSHIP

The Partnership is built on the premise that the whole is greater than the sum of its parts.

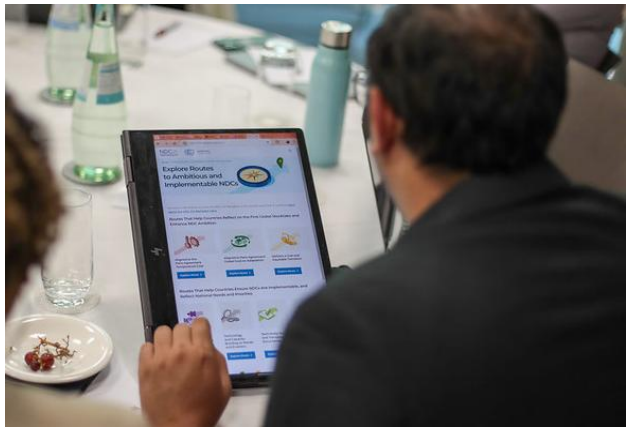
OUR DELIVERY MECHANISMS

Country Engagement

Working with countries, development partners and implementing partners, we catalyze support for country requests to implement and enhance NDCs.



Knowledge and Learning

Facilitating the exchange of best practices, lessons learned and key resources to scale up climate action.

Climate Finance

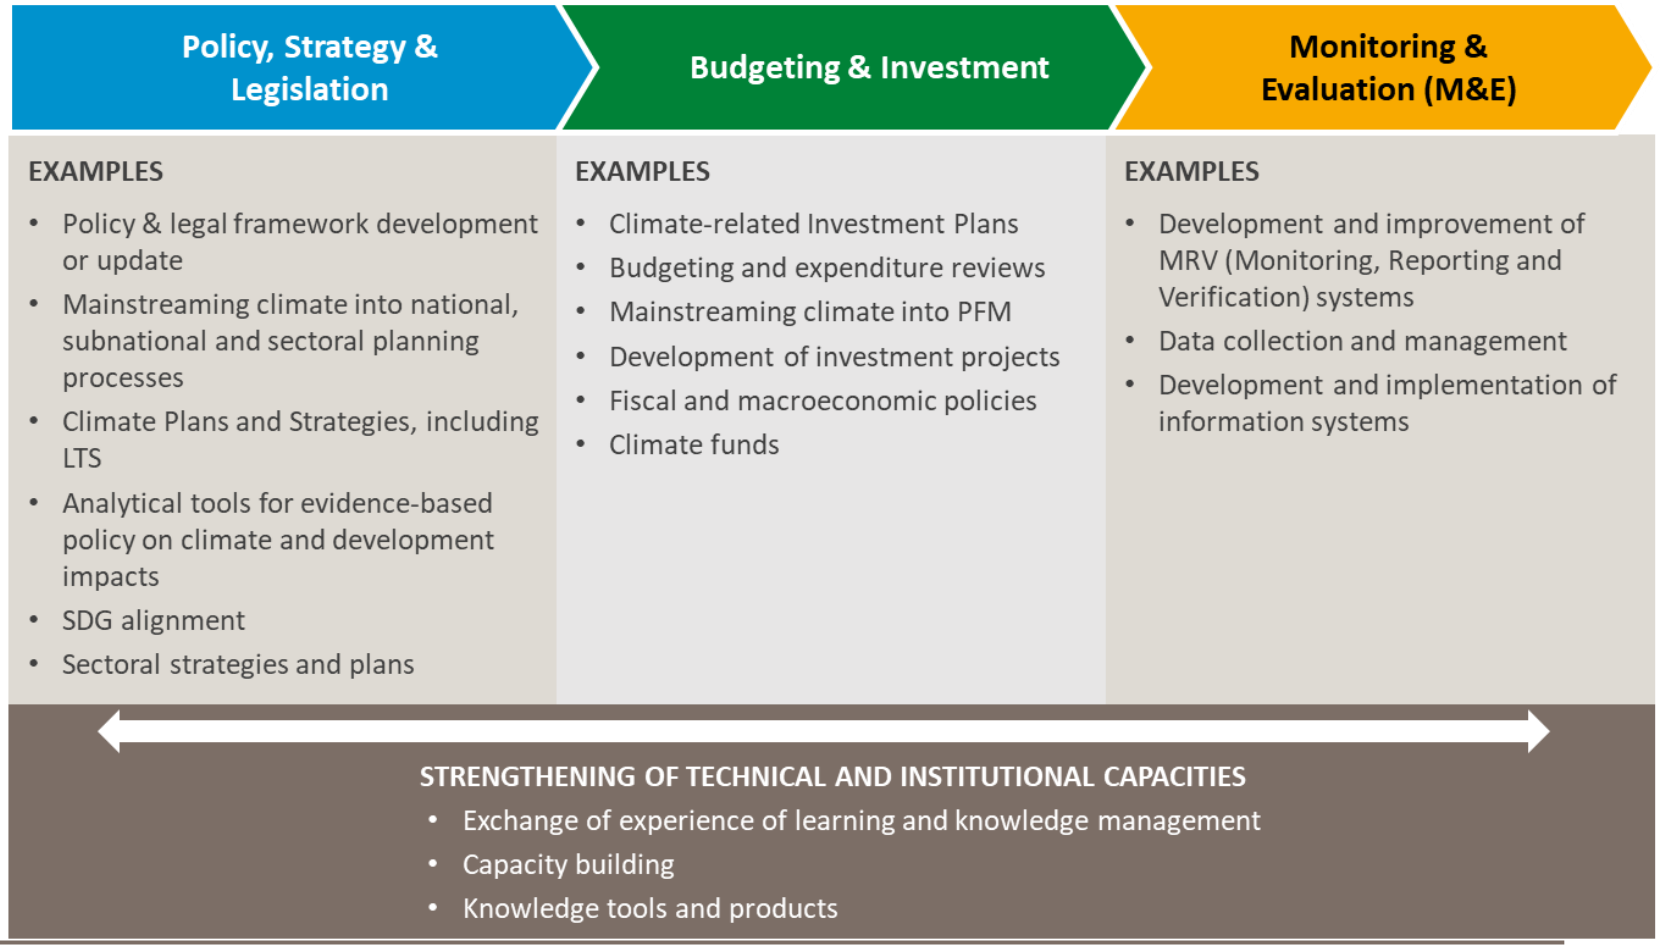
Supporting developing countries in navigating the complex climate finance landscape and optimizing the use of different sources of finance

LANDSCAPE OF SUPPORT

MOBILIZING CLIMATE AND DEVELOPMENT ACTION ACROSS GOVERNMENT AND SOCIETY

- **Responding to requests for support** from country members.
- **Coordinating, aligning and maximizing support** among members.
- **Bringing climate and development goals together** within broader sustainable development agendas by turning NDCs from stand-alone documents into national policies and implementation plans.
- Engaging with a **wide range of stakeholders**: 50% of member focal points surveyed report improved internal coordination on NDC related action.

Follow our introduction to the Country Engagement Process for more information



SUPPORT MECHANISMS

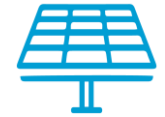
REQUEST FOR SUPPORT LETTERS (RSL)

- Countries can submit RSLs at any time to **seek support for priority climate/development needs.**
- Request for Support Letters are:
  - Government-approved letters signed by country FP.
  - RSLs are circulated to members every 1-2 months. Partners can respond with support offers.
  - The Support Unit facilitates coordination.

NDC IMPLEMENTATION/INVESTMENT PLANS

- Present country's climate change priorities in a **Results Based Management Framework.**
- Identify and prioritize climate/development actions.
- Coordinate ongoing support towards climate action.
- Identify gaps to mobilize support.
- Track progress.

GLOBAL CALL (LT-LEDS AND NDC UPDATE)



- Countries can continuously request support from now until the third quarter of 2025 to work simultaneously on **updating and improving their NDCs and/or developing LT-LEDS**.
- Funding has been set aside for this.

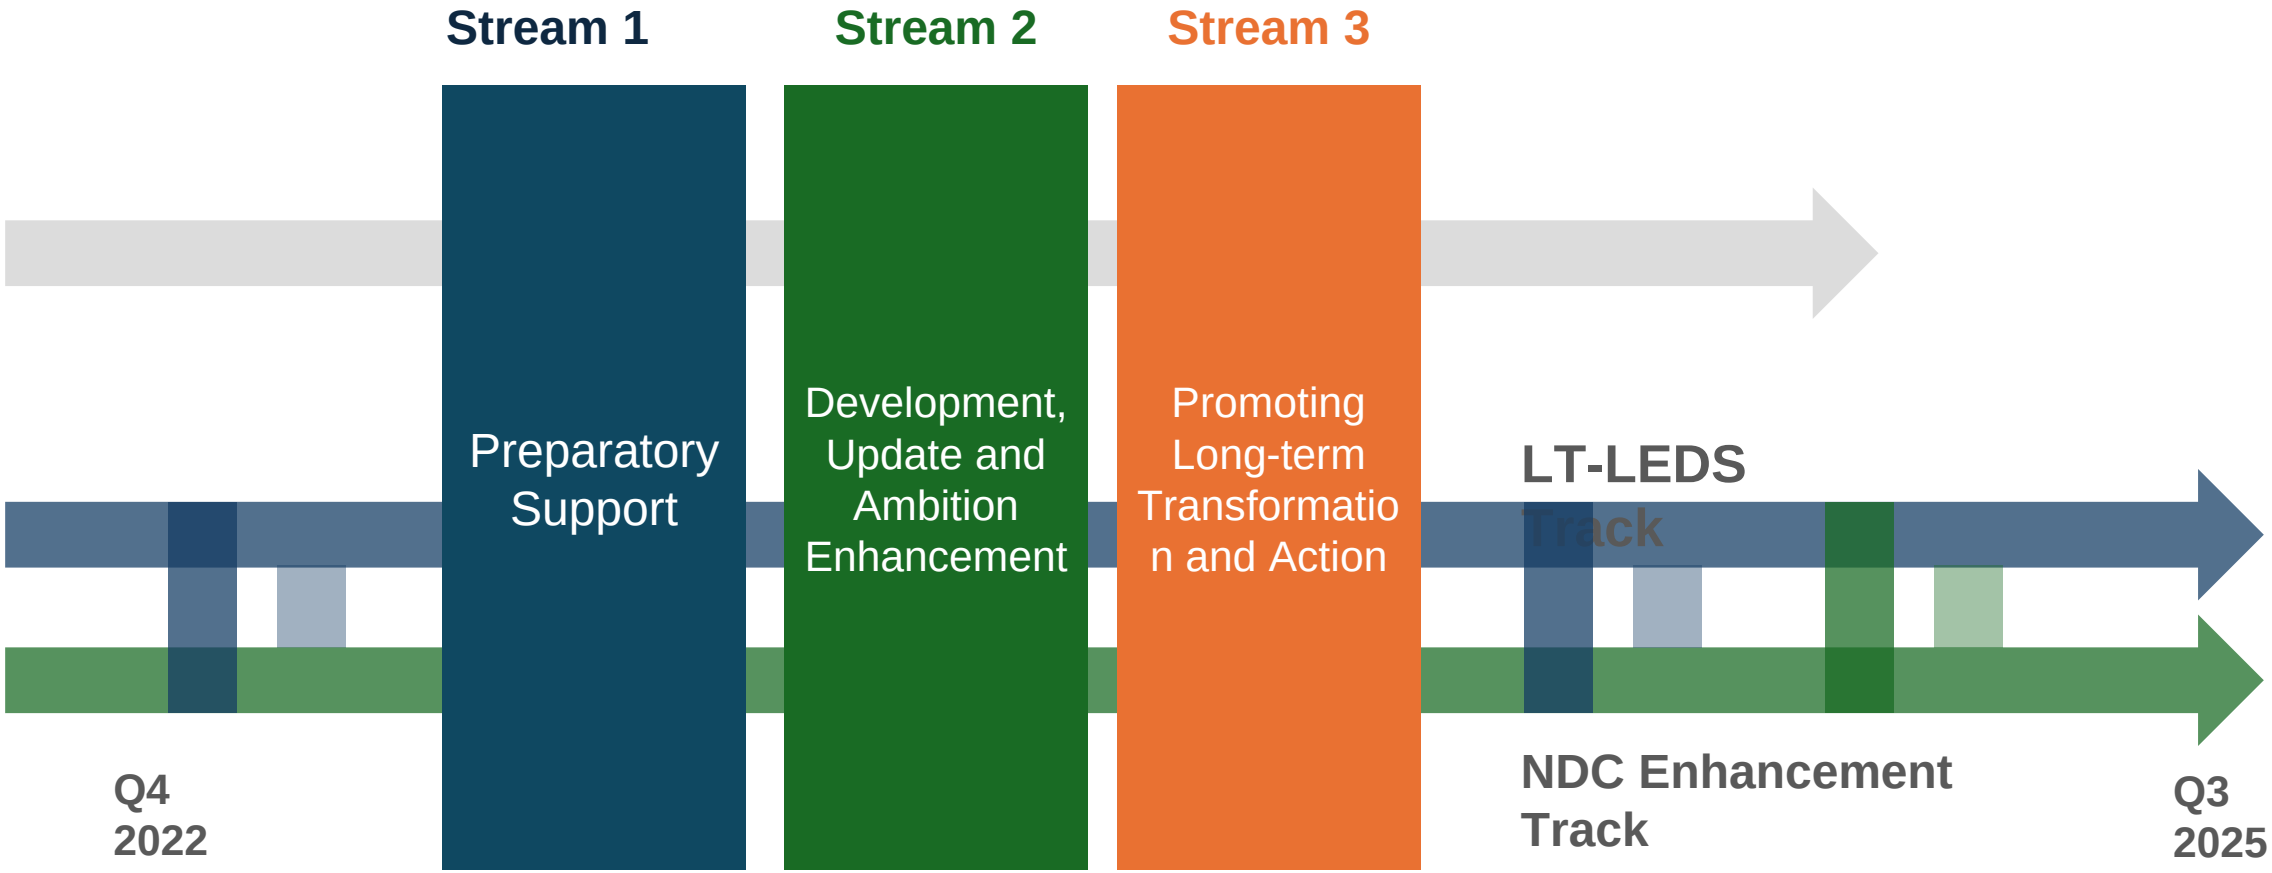
GREENING CENTRAL BANKS INITIATIVE

- Provide **preparatory support to central banks in integrating climate change** financial regulations
- Support in developing **roadmaps, frameworks for monetary policy implementation, stress tests, disclosure, and climate taxonomy**

PARTNERSHIP ACTION FUND (PAF)

- Pooled funding mechanism for **unsupported requests**.
- Competitive Procurement
- Streams:
  1. Facilitation / Advisor support
  2. Technical Assistance

GLOBAL CALL FOR NDCS 3.0 & LT-LEDS:
DEDICATED SUPPORT MECHANISM FOR NDCs AND LT-LEDS DEVELOPMENT AND ALIGNMENT (2022-2025)



- Dedicated expertise brought in partnership with **2050 Pathways Platform & UN Climate Change**
- Demand-driven support mobilized through and complemented with the Partnership Action Fund

NDC PARTNERSHIP

PARTNERSHIP SUPPORT FOR NDC DEVELOPMENT

- All but two countries (Kiribati and Tuvalu) in the region have submitted / will submit NDC 3.0
- A total of 20 Countries have sought support through the Global Call
  - 9 countries are fully supported
  - 8 partially supported
  - 3 have sought support directly from partners.
- 1 country is formulating their request with support from the NDC Partnership Support Unit
- 8 countries aim to update their NDCs, 4 aim to develop LT-LEDS, while 8 aim to work on NDC 3.0 and LT-LEDS in parallel.
