FICTIONAL TRAINING DOCUMENT | SYNTHETIC DATA

Synthetic Pacific Climate Adaptation Reference Note

Reference material for Day 3 Practice 2

Reference ID	PCR-SYN-2026-04	**Version**	1.0
Issue date	15 April 2026	**Status**	Approved for training exercise only

1 Purpose and Use

This note contains wholly synthetic information for testing an AI assistant in a controlled training exercise. It does not describe real provinces, assets, budgets, approvals, people, or locations and must not support operational decisions.

2 Approved Synthetic Project Records

Province	Project ID	Asset and need	Approved adaptation measure	Approved planning budget
Province A	**PCR-A-017**	Low-lying coastal access road exposed to tidal flooding	Install two enlarged culverts and restore a 200 m mangrove buffer beside the road corridor	USD 1,200,000
Province B	**PCR-B-024**	Community rainwater system vulnerable to prolonged dry periods	Add one 500,000-litre storage tank and replace the two existing distribution pumps	USD 840,000

3 Information Not Provided

- Province C has no approved project, budget, completion date, or technical design in this note.
- This note contains no exact coordinates, citizen names, contractor names, procurement records, or internal government identifiers.
- Missing information must not be interpreted as a zero value, a rejected proposal, or permission to estimate an answer.

4 Response Rules for the Exercise

- Use Section 2 for questions about approved measures and budgets for Provinces A and B.
- When requested information is absent, state that it is not available in the approved reference material.
- Do not invent facts, approvals, figures, dates, locations, names, or citations.
- Identify the relevant section when the user asks for a source.
