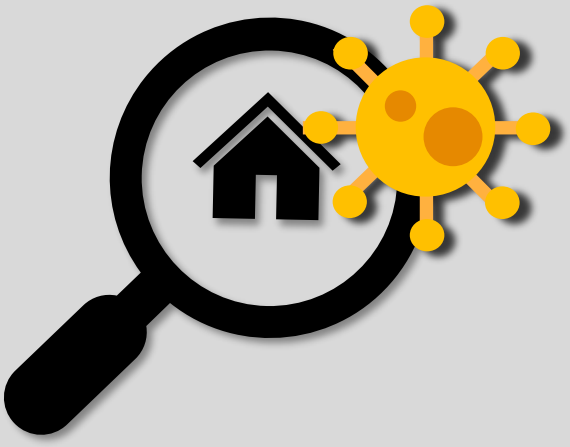
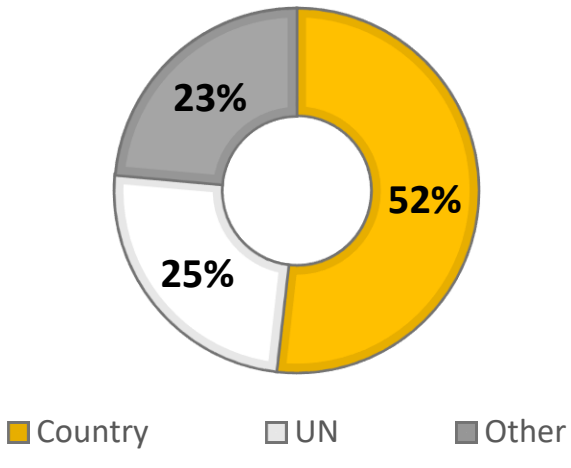
COVID-19 Impact on Household Surveys

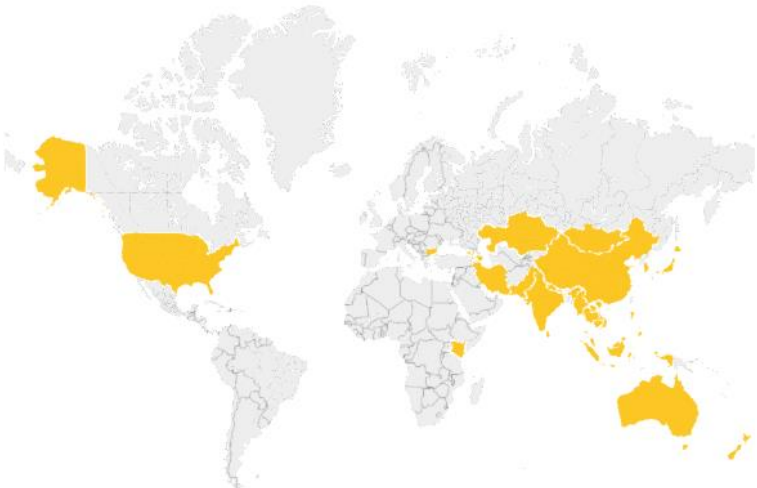


1 June 2020
12:00 – 13:00 BKK Time

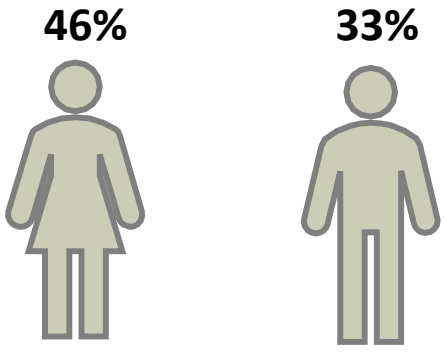
Participants Statistics

195 participants from 31 countries and 1 special administrative region attended the Asia-Pacific Stats Café Series, Session 2: COVID-19 Impact on Household Surveys.





Almost 50% of participants were female: 89 female participants and 64 male participants [42 participants with unknown gender].



The session was a collaboration between ILO, UNICEF and ESCAP to discuss COVID-19 issues through a data collection operations lens.
