

**Using data in evidence-based  
decision-making**  
**Launch of DevInfo version 6.0 in  
Asia and the Pacific:**

**2-5 February 2010  
Siem Reap, Cambodia**

Strategic Intent for DevInfo in Asia and the Pacific:  
*A wide range of development practitioners benefit from easy access to relevant and timely development information in national and thematic adaptations of DevInfo technology dedicated to broadening the use of data in evidence-based policy making. DevInfo is a fully integrated part of the decision-making processes monitoring human development through innovations in data presentation tools, advancing the improved use of data at all levels in public debates for better development results across Asia and Pacific.*
