

CONTENTS

	<u>Page</u>
1. INTRODUCTION	1
2. NETWORK IDENTIFICATION	3
2.1 Routes of international significance	3
2.1.1 Route TAR-S1	5
2.1.2 Route TAR-S2	5
2.1.3 Route TAR-S3	7
2.2 Routes of subregional significance	8
2.3 Description of TAR links within participating countries	8
2.3.1 TAR (Southern Corridor) in Bangladesh	8
2.3.2 TAR (Southern Corridor) in China	11
2.3.3 TAR (Southern Corridor) in India	13
2.3.4 TAR (Southern Corridor) in the Islamic Republic of Iran	17
2.3.5 TAR (Southern Corridor) in Myanmar	21
2.3.6 TAR (Southern Corridor) in Pakistan	25
2.3.7 TAR (Southern Corridor) in Sri Lanka	29
2.3.8 TAR (Southern Corridor) in Thailand	31
2.3.9 TAR (Southern Corridor) in Turkey	33
3. ROUTE CHOICES FOR USERS OF TAR SERVICES	38
3.1 Rail route choices, Kunming - Europe and Kunming - Central Asia and Islamic Republic of Iran	38
3.2 Rail route choices, Kunming to seaports	42
3.3 Rail route choices, Bangkok - Europe and Bangkok - Central Asia and Islamic Republic of Iran	43
3.4 General observations concerning route choice	45
4. CLOSING THE GAPS IN THE NETWORK	46
4.1 Assumed technical standards	48
4.2 Assumed unit costs of missing link construction	48
4.3 Method of estimating breakeven or threshold traffic volumes	49
4.4 Assessment of individual missing links	51
4.4.1 Links between Thailand and Myanmar	51
4.4.2 Links between China and Myanmar	56
4.4.3 Links between Myanmar and India	59
4.4.4 Missing link within the Islamic Republic of Iran	61
4.5 Summarized capital cost and threshold tonnage estimates	63
5. TRAFFIC DEMAND	64
5.1 Existing traffic demand	65
5.1.1 Bangladesh	65
5.1.2 India	66
5.1.3 Pakistan	68

	<u>Page</u>
5.1.4 Islamic Republic of Iran	70
5.1.5 Turkey	71
5.2 Diverted traffic demand	72
5.2.1 China	73
5.2.2 Thailand	74
5.2.3 Myanmar	75
5.2.4 Bangladesh	75
5.2.5 India	76
5.2.6 Pakistan	76
5.2.7 Islamic Republic of Iran	77
5.3 Generated traffic demand	77
5.4 Summarized forecasts of border crossing traffic	77
5.5 Traffic forecasts in relation to missing link construction	77
5.6 General observations concerning traffic demand forecasts	79
6. TECHNICAL REQUIREMENTS	80
6.1 Load and structure dimensions	80
6.1.1 Standards and requirements	80
6.1.2 Conformity of individual railway systems with TAR structure profile standards	81
6.2 Axle load	84
6.2.1 Standards and requirements	84
6.2.2 Conformity of individual railway systems with TAR axle load standards	86
6.3 Speed	88
6.3.1 Standards and requirements	88
6.3.2 Conformity of individual railway systems with TAR speed standards	89
7. OPERATIONAL REQUIREMENTS	100
7.1 Compatible and efficient rolling stock design	100
7.2 Compatibility of train assembly and load scheduling practices	103
7.3 Adequacy of route capacity	104
7.3.1 Bangladesh	104
7.3.2 India	105
7.3.3 Islamic Republic of Iran	105
7.3.4 Myanmar	105
7.3.5 Pakistan	106
7.3.6 Sri Lanka	106
7.3.7 Thailand	107
7.3.8 Turkey	107
7.4 Overcoming break-of-gauge problems	108
7.5 Adequacy of container handling capacity in ports and hinterland	109
7.5.1 Bangladesh	109
7.5.2 India	112
7.5.3 Islamic Republic of Iran	115
7.5.4 Myanmar	116
7.5.5 Pakistan	117
7.5.6 Turkey	118

	<u>Page</u>
8. COMMERCIAL REQUIREMENTS	120
8.1 Transit times	121
8.2 Tariffs	126
8.2.1 Tariff setting principles	126
8.2.2 Tariff benchmarks	128
9. DEVELOPMENT PLANS	132
9.1 TAR network development in the participating countries	132
9.1.1 Bangladesh	132
9.1.2 China	134
9.1.3 India	134
9.1.4 Islamic Republic of Iran	135
9.1.5 Myanmar	136
9.1.6 Pakistan	137
9.1.7 Sri Lanka	138
9.1.8 Thailand	139
9.1.9 Turkey	139
10. TRANSPORT FACILITATION ISSUES	142
10.1 Current status of administrative arrangements for border crossing rail traffic within the countries of the TAR Southern Corridor	142
10.1.1 International transit agreements and conventions.....	143
10.1.2 International rail transit agreements	143
10.1.3 Bilateral transit agreements and conventions	145
10.2 Resolving the deficiencies of current border crossing procedures	149
10.2.1 Excessive border crossing delays	149
10.2.2 Operational inefficiencies	150
10.2.3 Tariff setting inefficiencies	150
10.2.4 Railway adoption of EDI systems	151
11. MAIN CONCLUSIONS AND RECOMMENDATIONS	152
11.1 TAR network designation	152
11.2 Fundamental role and operational priorities	153
11.3 Closing the gaps in the network	153
11.4 Identifying and achieving targets for competitive rail service	154
11.5 Recommended minimum technical standards	154
11.6 Specific container handling needs	155
11.7 TAR network development needs	156
11.8 Traffic information and forecasting system enhancement	157
11.9 Facilitation measures for cross border traffic	157
11.10 Action Plan	158

ANNEXES

	<u>Page</u>
Annex 1: Freight traffic costing sub-model	163
Annex 2: Estimate of container traffic financial contribution	166
Annex 3: Estimate of breakeven volume required to justify construction of missing links	170

LIST OF MAPS

	<u>Page</u>
Map 1 Proposed Trans-Asian Railway routes	2
Map 2 Trans-Asian Railway Southern Corridor	4
Map 3 Trans-Asian Railway Southern Corridor: Network in Bangladesh	9
Map 4 Trans-Asian Railway Southern Corridor: Network in China	12
Map 5 Trans-Asian Railway Southern Corridor: Network in India	14
Map 6 Trans-Asian Railway Southern Corridor: Network in Islamic Republic of Iran	18
Map 7 Trans-Asian Railway Southern Corridor: Network in Myanmar	22
Map 8 Trans-Asian Railway Southern Corridor: Network in Pakistan	26
Map 9 Trans-Asian Railway Southern Corridor: Network in Sri Lanka.....	30
Map 10 Trans-Asian Railway Southern Corridor: Network in Thailand	32
Map 11 Trans-Asian Railway Southern Corridor: Network in Turkey.....	34
Map 12 Missing links in relation to existing TAR network in northern Myanmar, Bangladesh and northeastern India	47
Map 13 Missing links between Thailand and Myanmar in the TAR southern corridor	53
Map 14 Missing links between China and Myanmar in the TAR southern corridor	57
Map 15 Missing links between India and Myanmar in the TAR southern corridor	60
Map 16 TAR missing links in the Islamic Republic of Iran	62

LIST OF FIGURES

	<u>Page</u>
Figure 6.1 Structure and Loading Gauge Restriction in Bangladesh	92
Figure 6.2 Structure and Loading Gauge Restriction in China	93
Figure 6.3 Structure and Loading Gauge Restriction in India	94
Figure 6.4 Structure and Loading Gauge Restriction in Islamic Republic of Iran	95
Figure 6.5 Structure and Loading Gauge Restriction in Myanmar	96
Figure 6.6 Structure and Loading Gauge Restriction in Pakistan	97
Figure 6.7 Structure and Loading Gauge Restriction in Sri Lanka	98
Figure 6.8 Structure and Loading Gauge Restriction in Turkey	99

LIST OF TABLES

		<u>Page</u>
Table 2.1	Profile of Route TAR-S1 - Main intercontinental trunk route between Kunming (China) and Kapikule (Turkey)	6
Table 2.2	Profile of Route TAR-S2 - East-west trunk route between Nam Tok (Thailand) and Mandalay (Myanmar) part of intercontinental route between Bangkok and Kapikule	7
Table 2.3	Profile of Route TAR-S3(North - south trunk route between Sarakhs and Bandar Abbas, Islamic Republic of Iran, part of international route Central Asia - Europe and South/Southeast Asia)	8
Table 2.4	Basic characteristics of TAR (Southern Corridor) links in Bangladesh	10
Table 2.5	Basic characteristics of TAR (Southern Corridor) links in China	13
Table 2.6	Basic characteristics of TAR (Southern Corridor) links in India.....	15
Table 2.7	Basic characteristics of TAR (Southern Corridor) links in the Islamic Republic of Iran	19
Table 2.8	Basic characteristics of TAR (Southern Corridor) links in Myanmar	23
Table 2.9	Basic characteristics of TAR (Southern Corridor) links in Pakistan	27
Table 2.10	Basic characteristics of TAR (Southern Corridor) links in Sri Lanka	31
Table 2.11	Basic characteristics of TAR (Southern Corridor) links in Thailand	33
Table 2.12	Basic characteristics of TAR (Southern Corridor) links in Turkey	35
Table 3.1	Rail distance matrix, TAR Southern Corridor (with direct link Fariman - Bafq)	39
Table 3.2	Distance comparison - alternative routes from Kunming to (i) Europe, (ii) Central Asia, (iii) Islamic Republic of Iran.....	40
Table 3.3	Distance comparison - alternative routes from Bangkok to (i) Europe, (ii) Central Asia, (iii) Islamic Republic of Iran	44
Table 4.1	Assumed Technical Standards for New TAR Links	49
Table 4.2	Assumed unit capital costs of new line construction	50
Table 4.3	Summary of new line construction costs vs threshold freight tonnages	63
Table 5.1	Trend in rail container feeder volume and share, Dhaka-Chittagong-Dhaka ...	66
Table 5.2	Rail hauled international container traffic forecast, all TAR links in India	67
Table 5.3	Forecast of rail hauled container traffic across India-s borders	68
Table 5.4	Loaded container throughputs, Lahore Dry Port	68
Table 5.5	Summarized forecasts of rail hauled border crossing container traffic	78
Table 5.6	Traffic forecasts in relation to threshold tonnage requirement, missing links	78
Table 6.1	Dimensions and maximum weights of most commonly used ISO and non-ISO containers	81
Table 6.2	Conformity with structure profile requirements	84
Table 6.3	Axle loads in Pakistan	87

	<u>Page</u>
Table 7.1	Comparison of container wagons in service within TAR Southern Corridor .. 101
Table 7.2	Container throughput trend, Chittagong Port 110
Table 7.3	Container throughputs, TAR-connected ports in India 112
Table 7.4	Trend in container throughput, CONCOR terminals, 1993/94 - 1997/98 114
Table 7.5	Trend in port container throughput, Islamic Republic of Iran, 1992 - 1997 115
Table 7.6	Container throughput trend, Lahore Dry Port, 1993/94 - 1996/97 118
Table 8.1	Estimate of sea transit time for container movement, Dhaka-Frankfurt 121
Table 8.2	Estimated all-rail transit time for container movement, Dhaka-Frankfurt 122
Table 8.3	Estimate of sea transit time for container movement, intermediate routes 124
Table 8.4	Estimated all-rail transit time for container movement, intermediate routes... 125
Table 8.5	Estimate of sea handling and transport charges for container movement, Dhaka-Frankfurt 128
Table 8.6	Estimate of sea handling and transport charges for container movement, Ashgabat-Lahore 130
Table 8.7	Estimate of sea handling and transport charges for container movement, Ashgabat-Dhaka 131
Table 8.8	Estimate of sea handling and transport charges for container movement, Ashgabat-Delhi 131
Table 10.1	Status of ESCAP member countries- and area-s accession or being party to international conventions listed in Commission resolution 48/11, as of January 1999 144
Table 10.2	Bilateral agreements governing transit at borders within TAR southern corridor 146
Table 10.3	Border trade agreements between Myanmar and neighbouring countries 149
