FOURTH ASEAN INCLUSIVE BUSINESS SUMMIT

Building Inclusive Businesses To Build Back Better

Virtual Event, 22 September 2021
09:00 – 17:00 hrs (GMT +7 / Jakarta Time)

Organised by
Darussalam Enterprise (DARE)
United Nations Economic and Social Commission for Asia and the Pacific (ESCAP)
Inclusive Business Action Network (iBAN)
Organisation for Economic Co-operation and Development (OECD)
**Background**

Inclusive businesses provide goods, services, and livelihoods on a commercially viable basis, either at scale or scalable, to people living at the Base of the Economic Pyramid (BoP), making them part of the value chain of companies’ core business as suppliers, distributors, retailers, or customers. 

ASEAN governments have been exploring means to encourage more inclusive businesses (IB) to emerge, replicate and scale-up, and some member states are introducing national strategies and programmes to promote IB. At its 52nd Meeting in August 2020, ASEAN Economic Ministers endorsed the Guidelines for the Promotion of Inclusive Business in ASEAN.

At the same time, despite the current difficult COVID-19 context, business leaders, impact investors, and development actors are investing in IB models that support economic growth and social impact at scale.

The ASEAN Community is promoting inclusive business to address the challenges posed by COVID-19 and build back better. Business leaders and investors can learn from the diversity of business models in this region and public officials want to explore how to put into practice the recently adopted Guidelines for the Promotion of Inclusive Business in ASEAN.

**Objective**

The Fourth ASEAN Inclusive Business Summit will present a diversity of business models in Southeast Asia and beyond that are helping build back better. It will showcase essential elements that make a business model both inclusive and commercially viable and explore how inclusive businesses are helping low-income and marginalized populations to recover from the economic crisis. It will also present digital solutions, investment models, and partnerships that enable businesses to address the challenges posed by COVID-19 and build back better.

The Summit will explore how governments can put into practice the Guidelines for the Promotion of Inclusive Business in ASEAN. It will discuss in detail two of the core measures suggested in the Guidelines: 1) the establishment of an inclusive business accreditation and registration system, and 2) the provision of business coaching services for firms to develop inclusive business models.

**Participation**

The Summit will feature and attract multiple stakeholders involved in the inclusive business ecosystem in ASEAN, including:

- CEOs from companies with inclusive business models
- Public officials promoting inclusive businesses
- Financial institutions and multilateral development banks investing in inclusive business
- Organizations supporting inclusive business development
- National and international development partners and civil society organisations supporting public and private sector initiatives relevant for inclusive businesses

The Summit will be organized virtually, and it is expected to attract about 150 attendants.

**Expected outcomes**

The Fourth ASEAN Inclusive Business Summit will share learnings in the promotion of inclusive business. It will identify digital solutions, investment models, and partnerships that enable businesses to address the challenges posed by COVID-19 and build back better. The Summit will also explore in detail how to put into practice the Guidelines for the Promotion of Inclusive Business in ASEAN, particularly on IB accreditation and registration as well as IB coaching for companies.
