STATEMENT
THE REPUBLIC OF INDONESIA
AT THE
ELEVENTH ASIA PACIFIC FORUM ON SUSTAINABLE DEVELOPMENT

Agenda Item 4(c) - Reporting on System-Wide Results of the United Nations at the Regional Level in Asia and the Pacific in support of the 2030 Agenda

Bangkok, 22 February 2024

Thank you, Chair.

Excellencies, Ladies and Gentlemen,

Allow me to begin by expressing appreciation to the United Nations for its work in supporting the implementation of the 2030 Agenda in the Asia Pacific.

In implementing the 2030 Agenda, Indonesia has been working closely with all relevant parties, including the United Nations.

➤ This includes in promoting inclusive economic growth and in localizing the SDGs.
For Indonesia, the United Nations has provided valuable support not only in our efforts in attaining the SDGs, but also in the tracking and monitoring of SDGs progress in the country.

In this context, the Government of Indonesia has worked hand-in-hand with the United Nations in developing the SDGs Dashboard, a platform in which public can access to obtain information on progress of selected SDG indicator at both national and provincial levels.

Further, the use of SDGs dashboard can be taken as initial step to report the SDGs implementation in Indonesia.

The United Nations has also provided meaningful support in the development process of Indonesia’s Voluntary National Reviews as well as of the Voluntary Local Reviews of our subnational governments.

**Excellencies, Ladies and Gentlemen,**

Indonesia believes that international cooperation in achieving the SDGs in the region must continue to be strengthened.

This cooperation should be guided by the principle of national ownership and mutual benefits and based on the needs and priorities of respective countries.

We look forward to enhancing our cooperation with other Member States, the United Nations and other International Organizations, development partners and all of other stakeholders to advance the SDGs and meet our 2030 target.

**I thank you.**
