STATEMENT
THE REPUBLIC OF INDONESIA
AT THE
ELEVENTH ASIA PACIFIC FORUM ON SUSTAINABLE DEVELOPMENT

Agenda item 4(a): Review of regional progress and opportunities for achieving the SDGs - Implementation of the 2030 Agenda for Sustainable Development at the subregional level - Reporting back from the SDG Round tables

Bangkok, 22 February 2024

Thank you, Chair

Indonesia has participated in the SDG Roundtables, in which we shared key policies in achieving SDG 1, SDG 2, SDG 13, SDG 16 and SDG 17.

To continue reducing poverty, we implement adaptive social protection (ASP) to prevent and protect communities against vulnerability and social exclusion, especially for the vulnerable groups.
We also continue to improve our human capital; increasing job opportunities; enhancing small-productive economic programs; developing basic service infrastructures; and provide conditional cash transfer and other social protection programs.

On SDG 2, we stress the importance of **Food System Transformation** through the food-water-energy nexus and food loss and waste management.

Another priority for Indonesia is advancing **blue food** in our food system decision-making as an alternative source of protein while managing marine protected areas.

On SDG 13, we implement **climate resilient and low carbon development towards green economy**, focusing on green industry, waste management, circular economy, sustainable energy, sustainable land and restoration, marine and coastal, agriculture, water, and health.

We also implement **sustainable forest and fisheries management practices**.

On SDG 16, we uphold democracy as a catalyst for peace, stability and prosperity. We continue to provide legal aid for those who cannot afford legal representation, towards a more inclusive and just society.

We also continue to address the challenges of illicit financing and corruption through **robust legal framework and transparent institutions**.

On SDG 17, we continue to enhance **financial resource mobilization, strengthening tax system and fiscal financing as well as overcoming foreign debt**.

In **strengthening global partnership for the SDGs**, we continue to enhance South-South Triangular Cooperation (SSTC) and take greater international responsibility, including recently as Chair of ASEAN in 2023 and as one of the Co-Chairs of the Global Partnership for Effective Development Cooperation.

We seek to advance concrete actions and collaboration that would contribute to the achievement of the SDGs at national, Asia-Pacific and global levels.

Thank you.
