Private Sector Engagement is Essential

In Thailand, the private sector accounts for:

- Over 90% of jobs
- 88% of GDP

To meet the SDGs in Thailand, it is estimated that about US$40.9 billion in additional annual investment is required.

The private sector’s innovation, creativity, technological expertise and investment are essential to achieving the SDGs.
Key reflections

1. Strong partnerships and cooperation from all sectors
2. Disability is everyone’s issue
3. Everyone to contribute to sustainable development
THANK YOU!
