Advocacy for Inclusion of the people with psychosocial disabilities in Asia Pacific

Ohyong Kweon, Korean Alliance for Mobilizing Inclusion
Board member of WNUSP
It is with sincere condolences that we announce the passing of

Gábor Gombos

an outstanding advocate of the Hungarian and international disability movement,

a survivor of psychiatry and defender of human rights

on 5 June 2022, at the age of 61.

On his last journey Gábor will be accompanied by his family, friends, and colleagues.
The Return

Yoon, Seok Hee
South Korea keeps many mentally ill patients in hospitals for long periods. Some health care professionals now advocate more community-based living for those whose symptoms can be controlled. One longtime patient returns frequently to a mental hospital to help others and retain her sanity. Her new life alternates between solitude and social interaction, anxiety and joy.
Concluding the decade to “Make the Right Real”

• Nothing about us without us
• Need platform for talking and discussing our own rights and making them real!
