Türkiye's Country Statement: Agile Statistical Systems Fit for the Future - TurkStat's Efforts on Methodology and Research

Distinguished Representatives of UNESCAP,
Honorable Delegates of the Ninth Session,
Esteemed Guests, Colleagues, and Partners,

Upon reviewing the relevant document, it has been identified that TurkStat has made direct contributions under the following headings:

- **A. Opportunities and Challenges in a Data-Driven World**

- Enhanced Decision-Making
- Improved Efficiency

In this context, the key initiatives undertaken by TurkStat are as follows:

- **Barcode Assignment Study**,
- **Motor Vehicle Insurance Value Assessment Study**,
- **Determination of Sampling Strata for Energy Statistics**.

These initiatives have enabled the development and deployment of decision-support tools that strengthen the foundation for current and future projects undertaken by other groups.

Additionally, these efforts have contributed to the effective collaboration processes highlighted under the **C. Cross-Functional Teams** section of the document. TurkStat remains committed to supporting the activities of statistical units with enhanced and efficient decision-support tools.

Thank you.
