Webinar on Inequalities in CRVS: 
*Let’s really get every one in the picture!*

Area 2. Other qualitative assessments

Inequality Lessons learned from the field

25 January 2021, 12:00 – 13:30 (BKK Time)
Why are inequality assessments critical?

Why would countries undertake Inequality assessments when the coverage is low?

What are we looking for in an inequality assessment?

Are countries analysing the existing data at different levels?

What are the major steps to undertake?

How to harness the power of CRVS systems for ensure universal registration?
What we have learnt from practice?

- Many tools available, yet few are used
- What is the starting point?
- Legislation – operations – data – community partnerships are critical to the assessments
- Rights based approaches and human centred design are key to unravelling important discrepancies
- Analysis is difficult - translating everything in practice is even more difficult
- How to convince stakeholders to invest in CRVS Systems?
