Global Webinar on Strengthening Climate Change and Disaster-Related Statistics: Needs, Priorities, and Action

Way forward: overview of Workstream 2.1 activities:

• Development and improvement of data collection tools for selected climate change indicators:
  • National integrated coastal zone management (131)
  • Proportion of municipal waste treated (with focus on food waste) (157)

• Associate event of 3rd Expert Forum on Disaster-Related Statistics:
  • Assessing challenges, needs and opportunities in advancing climate change- and disaster-related statistics in Asia-Pacific

• Work with selected number of target countries to increase capacity to respond to demands for statistics related to climate change and disasters

• Global webinars focused on sharing latest developments, country achievements and future challenges
Global Webinar on Strengthening Climate Change and Disaster-Related Statistics: Needs, Priorities, and Action

Concluding remarks:

• Thank you to all our presenters, our interpreters and everyone who contributed to the discussions
  • 19 presentations from 19 different experts
  • Copies of the presentations will be made available as PDFs and placed on the event webpage: [link]

• Post-webinar survey – we highly appreciate your suggestions/comments

• Thank you to colleagues from DA14 project partners: ESCAP & UNEP, as well as ECA, ECE, ECLAC, ESCWA and UNSD.

• Questions?
  • Richard Tonkin (ESCAP) - Richard.Tonkin@un.org
  • Ekaterina Poleshchuk (UNEP) - Ekaterina.Poleshchuk@un.org
  • Piyapat (Por) Nakornchai (ESCAP) - Nakornchai@un.org
  • Ruoxi Li (UNEP) - Ruoxi.Li1@un.org
