Startup Central Eurasia

Cooperate for positive changes
Startup Central Eurasia is an alliance of the Startup and Innovation Ecosystem Developer Governmental and Non-Governmental organizations, Techparks, Accelerators, Incubators, Angel Networks, Venture Funds, Co-working Spaces, and Startups to combine a strength for innovation ecosystem development, mutual projects and collaboration, exchanging information, planning joint projects and initiatives, providing better access to the markets and opportunities, created by Future Laboratory and supported by ITU.int
What we are doing:

The Startup Central Eurasia is membership based organization, with its secretariat created for the reason to provide to the alliance members:

- Ability to exchange information about innovation and startup activities and events through the platform www.startupcentraleurasia.com

- Ability to collect, organize and distribute information to the alliance members about interesting initiatives and collaboration opportunities

- Ability to collect, organize and distribute information about possibilities of access to the finance and resources for Startups and Startup Ecosystem development and distribute this information to its members
What we are doing:

*The Startup Central Eurasia is a membership-based organization, with it’s secretariat created for the reason to provide to the alliance members:*

- Access to the information about member countries on how to enter to the market or relocate
- Access to the different tools for analyzing startups' KPIs from Central Eurasia
- Exchanging of experience, best practice through periodic events and networking sessions
- Capacity and knowledge development trainings for the Startups and Ecosystem players of member countries

Success Cases:

The startup raised investments and began development in Silicon Valley.
«Cooperation, integration, collaboration with international platforms such as Startup Central Eurasia – this is absolutely appropriate for us. The second big stage of Astana Hub development on internationalization should start from such collaborations».

Magzhan Madiev – CEO of the International Technopark of IT startups Astana Hub in Kazakhstan.
«It is here, on platforms like this that we can see the weak spots in the development of startup ecosystems that are not visible to all».

Dilshod Zufarov – Managing Partner at UZCARD Ventures.
