Regional Cooperation Mechanism on Low Carbon Transport: Establishment and Implementation of Low Carbon Transport Targets and Timelines in Asia and the Pacific

National Low Carbon Transport Roadmaps and Strategies (Review)

17-18 July 2024
Bangkok, Thailand

Wei-Shiuen Ng
Economic Affairs Officer, Transport Division, ESCAP
Review of National Low Carbon Transport Roadmaps and Strategies

Priorities:

- Sectoral and economy wide low carbon national plans and strategies
- Implementation action
- Financing mechanism
- Mobility and energy transition
- Low carbon options for all transport modes
- Reducing air pollution and congestion
Meeting Objectives

• Strengthen regional cooperation in areas of common interest and relevance for ESCAP member States across the Asia Pacific region to accelerate transport and climate action

• Present relevant tools, policy frameworks, mechanisms, and partnerships that will support the development of low carbon transport targets and timelines in Asia and the Pacific

• Facilitate multistakeholder engagement

• Discuss next steps and the possibility of a regional action plan
