2nd Regional Partners Forum @Quito+5: Accelerating Action for Sustainable Urbanization in Asia and the Pacific

Deep Dive session
“How to link SDG and territorial planning”
29 October 2021, 15:00-17:00 hours (Bangkok)

Local and territorial Planning, based on shared values and guided by the 17 SDGs, is to shape and make our cities and villages into better places. In this deep dive session you will learn how to connect the SDG agenda to public spaces and placemaking, how to easily map and analyse the outreach and limits of stakeholders involved, and how to embed planning in leadership and administration.

Based on practical cases and experiences, participants will engage with each other through games, debates and clustering of ideas. If you like to facilitate, to network and to share, this session is for you.

Organized by UCLG Headquarter and UN-HABITAT

Contact persons: s.hoeflich@uclg.org and Bruno Dercon <bruno.dercon@un.org>
