E-learning on developing national indicator framework for SDG monitoring

Sokol Vako

United Nations Statistical Institute for Asia and the Pacific
• **Why:** Often policy documents/plans and indicator frameworks are misaligned (vague policy targets, difficult to measure outcomes, indicators that are not statistically sound, etc.)

• **What:** facilitated e-learning course discussing practices for better alignment:
  • Development and structure of National/Sector Plans
  • Process of developing national indicators
  • The importance of policy and data integration
Regional facilitated e-learning course

• **Where:** online at SIAP e-learning platform

• **When:** 24 May-25 June

• **Who:** NSOs, Ministries of Planning, International Organizations and others working on developing indicator frameworks aligned with policies/ those interested in the topic

• **How:** [Click here](#) to register for the course by 20 May
