

The Changing Realities of Population in Asia and Pacific

Low-fertility and population ageing in post-COVID era

Meeting Room G, UNCC and online (zoom) 16 November 2023, 12:30-13:45

Reiko Hayashi
(IPSS Japan)

Fatemeh Torabi
(UT Iran)

Menjung Tang
(CPDRC China)

Yogendra Gurung
(CDPS/TU, Nepal)

Samir KC
(IIASA/KAUST)

In Asia and Pacific, population is ageing and fertility is lowering. In this side event, the members of the Asian Population Association will briefly demonstrate the demographic at the country and regional level. The presentations will be followed by the interactive discussion with the APPC7 participants onsite and the stakeholders online. It is aimed to identify the key challenges and provide possible policy choices for the new demographic reality in the region of the post-COVID era.
