14-17 DECEMBER 2021
United Nations Economic and Social Commission for Asia and the Pacific
Fourth Ministerial Conference on Transport
Bangkok and online, 14-17 December 2021
Senior Official’s Segment

SENIOR OFFICIAL’S STATEMENTS

Ministry of Roads and Urban Development of IRAN
Deputy of Transportation
Ministry of Roads and Urban Development has set the Road Safety program at the highest priority in its mission. In this regard, several programs are running in parallel. But chief among them are:

- Releasing the “Decade of Action for Road Safety document” in line with the UN program for road safety
- Executing a plan in cooperation with WHO under the title of “Speed Management Project”
- Launching the “Road Safety Lead Agency Enhancement in I.R. IRAN” funded by RSF (UN Road Safety Fund) in the shadow of ESCAP support.

My dear colleagues will explain the safety projects in detail at the “Saving lives on the Asia-Pacific roads” side event.
