

Review of Demographics Dividend in Timor-Leste

Presented by:

Elias dos Santos Ferreira, L.Ec,MM

Director General

General Directorate of Statistics-Ministry of Finance

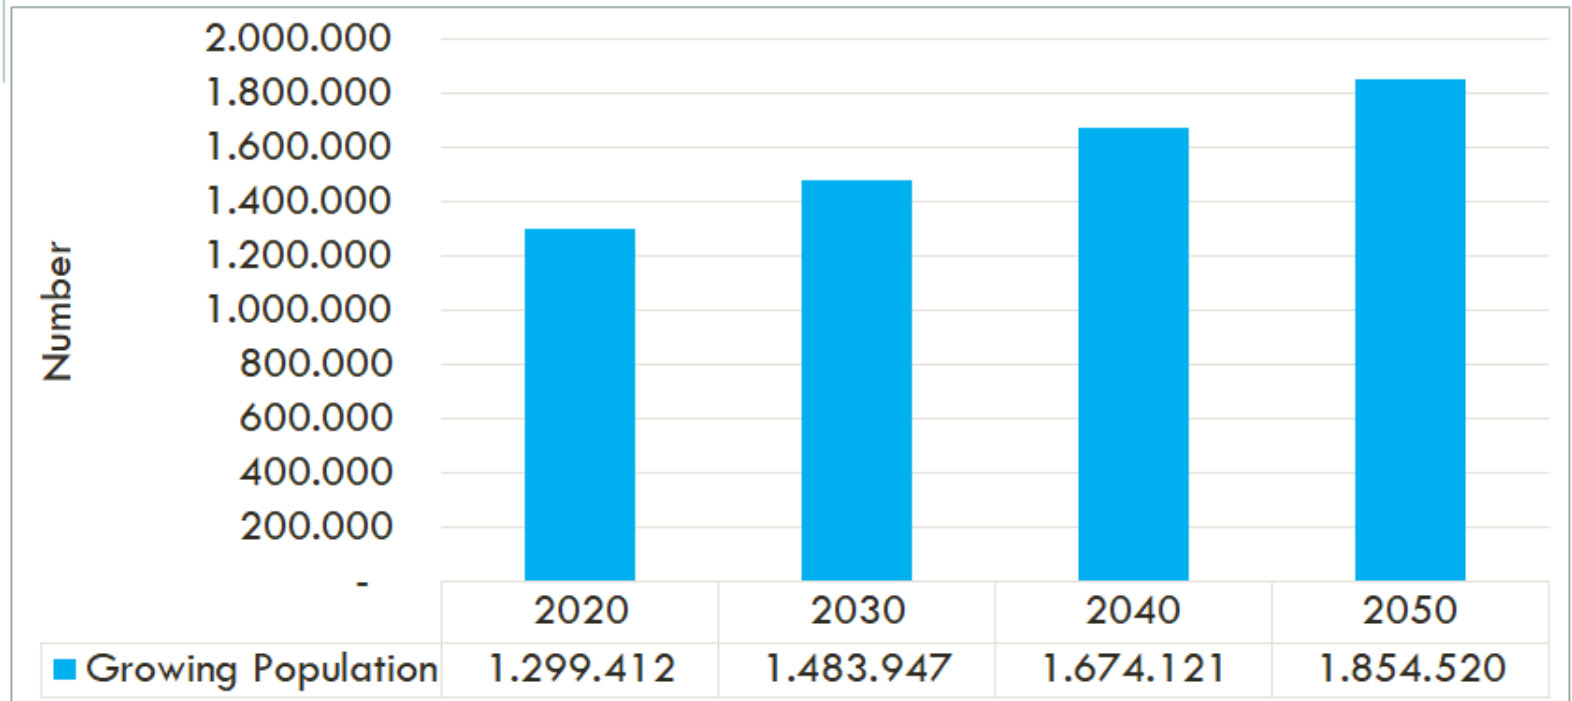

Outline

- Introduction
- Project overview
- Target of the participants
- Plan policy on five domain
- Challenges
- Lesson Learned
- Recommendation

Introduction

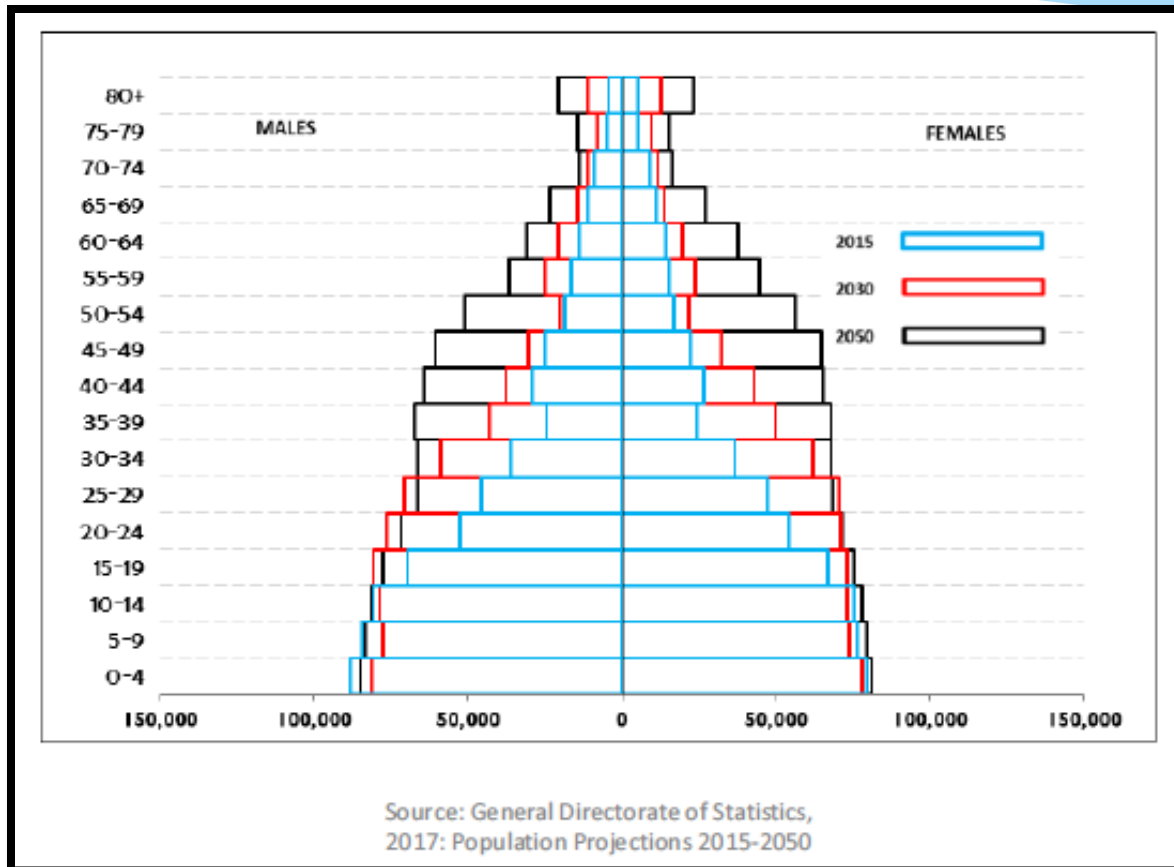

- Population dynamics in many countries in the region “the Asia-Pacific” and learning from Timor-Leste population transition, there is a window of opportunity to benefit from a growing
- working age population and gain the demographic dividend.
But many challenges remain in the context of:
 - Investments in youth
 - Women’s empowerment
 - Creating conditions for sustainable socioeconomic development

Project overview

Objective of the Project

1. Objective of the National Workshop;

To review demographic dividend concepts good practices, and plan ahead with regard to further project implementation, in particular applying the main knowledge product of the project;

2. objective of the Virtual meeting;

- To strengthening collaboration and build up strong communication with key stakeholders for monitoring and evaluation.
- To act upon the outcomes of the national workshop on harnessing the demographic dividend.
- To explore ways in which each participating entity can implement the outcomes of the consultations.
- To develop regional teams to draft inputs to a report to be validated at the national level.

Objective of the Project (cont.)

3. Objective of the Regional consultation;

- To share regional views on the benefits of harnessing the demographic dividend to boost economic growth for the region.
- To consult regarding which metadata are available to develop strategies and monitor progress in each of the five domains.
- To explore and share local knowledge on the demographic dividend and gender equality.
- To raise local awareness for integrating strategies concerning the five domains into local plans.

Objective of the Project (cont.)

4. Objective of the National Validation workshop;

- To present the results of regional consultation activities and findings.
- To validate key finding inputs from the regional consultations.
- To formulate policy recommendations for integration of monitoring and evaluation mechanisms.

Target of the Participants

Demography
Education
Economy
Health
Governance
