Building Forward Together: Towards an inclusive and resilient Asia and the Pacific
Impacts of COVID-19 on the SDGs

Education (SDG 4):
• School closures reduced capacity for childcare
• Disruptions to nutrition and health
• Female students, and children and adolescents with disabilities disproportionately affected by school closures and lack of remote learning access

Gender Equality (SDG 5):
• Increased burden of care
• Rise in gender-based violence, child marriage and teen pregnancy
• Decreased access to healthcare
• Setbacks to women’s employment especially in retail, education, food and hospitality, tourism

Life Below Water (SDG 14)/Life on Land (SDG 15):
• Surging medical and plastic waste
• Decline in tourism revenues and jobs
• Impact on protected and conserved areas
• Rising pressures on forests and sustainable fish harvesting
Key factors that influence the dynamics of recovery

- Vaccination
- Economic Structure
- Social Protection
- Environmental Risks
- Digitalization
- Fiscal Space
Building forward together to achieve the SDGs
2023 Partnership Report

Delivering SDGs Through the Energy, Food and Finance Nexus
Focusing on today’s global crises:

- Disrupted food supply systems
- Increased poverty and exacerbating social inequalities
- Deterioration of economic, social and environmental conditions
- Disruptions to key systems
- Increased energy prices
- Increased commodity prices
- Fiscal stress
- Droughts, natural disasters and extreme weather
- Climate Change
- COVID 19
Explores how energy prices, food supply and security, fiscal stresses have already been impacted by the pandemic.

These have been exacerbated by the situation in Ukraine.

Impacts on status of SDG 6, 7, 9, 11, and 17.

Explores solutions at the nexus of food energy and finance crises in A-P including green transitions and innovative practices.

Explores how different stakeholders leverage the SDG framework for impact.

Forward-looking and identifies:
- key actions
- policy recommendations
- pathways through SDG transformations in the Asia-Pacific region.
### Addressing the Crises through SDG 17: Partnerships for the Goals

17.16 Enhance the Global Partnership for Sustainable Development

<table>
