Mr. Ricardo Toro Tassara

National Director
National Emergency Office, Ministry of Interior
CHILE

Ricardo Toro Tassara was designated as National Director of Chile's National Emergency Office (ONEMI) on 20 December 2012. He achieved the rank of General in the Chilean Army (ret.), with postgraduate studies in Business Administration and a Masters' degrees in Human Resources and Strategic

Planning. He was appointed to the position through Chile's Senior Public Management System, which was renewed for a third period starting in 2019.

In October 2017, Mr. Toro was appointed as member of the Consultative Group of the Central Emergency Response Fund (CERF) that guides and advises the Secretary-General of the United Nations on the use and allocation of resources from the Fund, which constitutes one of the more effective mechanisms in supporting rapid response to people affected by humanitarian crises, including so-called "forgotten crises" and underfunded humanitarian emergencies.

Ms. Loretta Hieber Girardet

Chief, Supporting and Monitoring Sendai Framework Implementation (SAMSFI)
Branch
United Nations Office for Disaster Risk Reduction (UNDRR), Geneva

Ms. Loretta Hieber Girardet is the Chief of the Support and Monitoring of Sendai Framework Implementation Branch covering risk information and analytics, climate change, disaster loss and monitoring data and capacity-building for UNDRR globally. Previously, she served as Chief of the UNDRR Asia-Pacific regional office, covering 38 of the world's most disaster-prone countries. Loretta has served in various management positions at OCHA for over a decade before joining UNDRR, including overseeing the global Cluster coordination mechanism and having responsibility for IASC mechanisms on coordinated humanitarian needs assessments. She also has a background in public health and worked for the World Health Organization in various capacities, including in emergency contexts in Afghanistan, Pakistan and sub-Saharan Africa. Her experience in emergency contexts spans more than 25 years and she is the author of several publications including Lifeline Media: Reaching Populations in Crises which promotes greater accountability to people affected by disasters. Her academic background includes fellowships and degrees from the Harvard School of Public Health and University of Paris-Assas.

Mr. Gregory Scott (Moderator)

Inter-Regional Advisor, UN-GGIM
 United Nations Statistics Division (UNSD), Department of Economic and Social
 Affairs (DESA)

Greg Scott joined the United Nations Statistics Division in 2012 with the specific task of establishing the United Nations Committee of Experts on Global Geospatial Information Management (UN-GGIM) and growing its relevance and status with Member States and related International Organizations involved in national, regional and global geospatial information management. In his role as Secretariat, Greg provides strategic policy advice and leadership, and guides the development, coordination and implementation of the substantive content for the Committee of Experts.

Greg previously spent 25 years in Geoscience Australia in several key roles delivering Australia's national topographic mapping and derivative geospatial programs, and providing independent scientific analysis and advice in the use of geospatial information for environmental management, emergency management, and critical infrastructure protection. Greg possesses formal qualifications in Cartography and Survey Mapping

from New Zealand, a Graduate Diploma in Geography from the Australian National University, and a PhD in Geomatics Engineering from the University of Melbourne.
