2025:
???

pages

 The Voice of Knowledge & Innovation

Timeline

- August 1-3: Workshop
- Early September: Circulate “Zero” draft outcome document
 - Update issue briefs
- Now to mid-2019: Pilots
- Late-2019:
 - Regional Expert workshop to demonstrate results of pilots
 - Draft Technical Guidance on Ocean Accounts
 - Assessment
 - Initial Knowledge Platform

My homework (1)

- Issue 1. Spatial units and ecosystem classification
 - Objective: Recommend standard approach to delineating spatial units coherent with international methods and SEEA.
- Issue 2. Ecosystem services
 - Objective: Review ecosystem services classifications with respect to the ocean and recommend adaptations or expansions if required.
- Issue 3. Disaster risk and climate change
 - Objective: To review existing frameworks for disaster risk and climate change statistics. To suggest where linkages to the ocean exist and where they need to be developed.
- Issue 4. Links to social concerns
 - Objective: To develop guidelines on integrating social concerns into Ocean Accounts.
- Issue 5: Links to economic concerns
 - Objective: To integrate economic concerns into Ocean Accounts.
 - to ensure that standard economic accounts (SNA) fully include the direct economic benefits of the ocean
 - to augment standard economic accounts with additional (non-SNA) benefits of marine resources.

My homework (2)

- **Issue 6: Global data availability**
 - Objective: To review sources of global data that could be applied to national, regional or global Ocean Accounts.
- **Issue 7: Progress on measuring SDG14**
 - Objective: Review efforts to develop metadata (measurement standards) for SDG14-related indicators. Can these be linked to specific components of the ocean accounts?
- **Issue 8: Ocean governance**
 - Objective: To review international, and selected regional and national governance mechanisms with respect to their information needs. This issue could also include initiatives on new technologies and sustainable management approaches.
- **Issue 9: Modelling the ocean**
 - Objective: To review sources of global data that could be applied to national, regional or global Ocean Accounts.

Your homework

- Contribute to issue papers:
 - Reference and summary (rather than more homework)
 - Keep in touch
 - Use this in your pilots (there's already a lot in the SEEA: Central Framework, Ecosystems, AFF)
 - Let us know how it goes.
 - Ask/give advice
 - Personal/institutional commitments
- Sanjesh
