Project implementation in EDCF

EDCF Sectors

Typical Outputs of EDCF Projects

Sector	Project Outputs
Transport	Highways Railways
Health	Tertiary referral hospital Cancer center University Hospitals
Water & Sanitation	Water Treatment Facility Irrigation Infrastructures
Energy	Power plants Electric power transmission & distribution system

Overview of Project Monitoring

➤ During the Implementation

- Partner country government (PMU) → EDCF

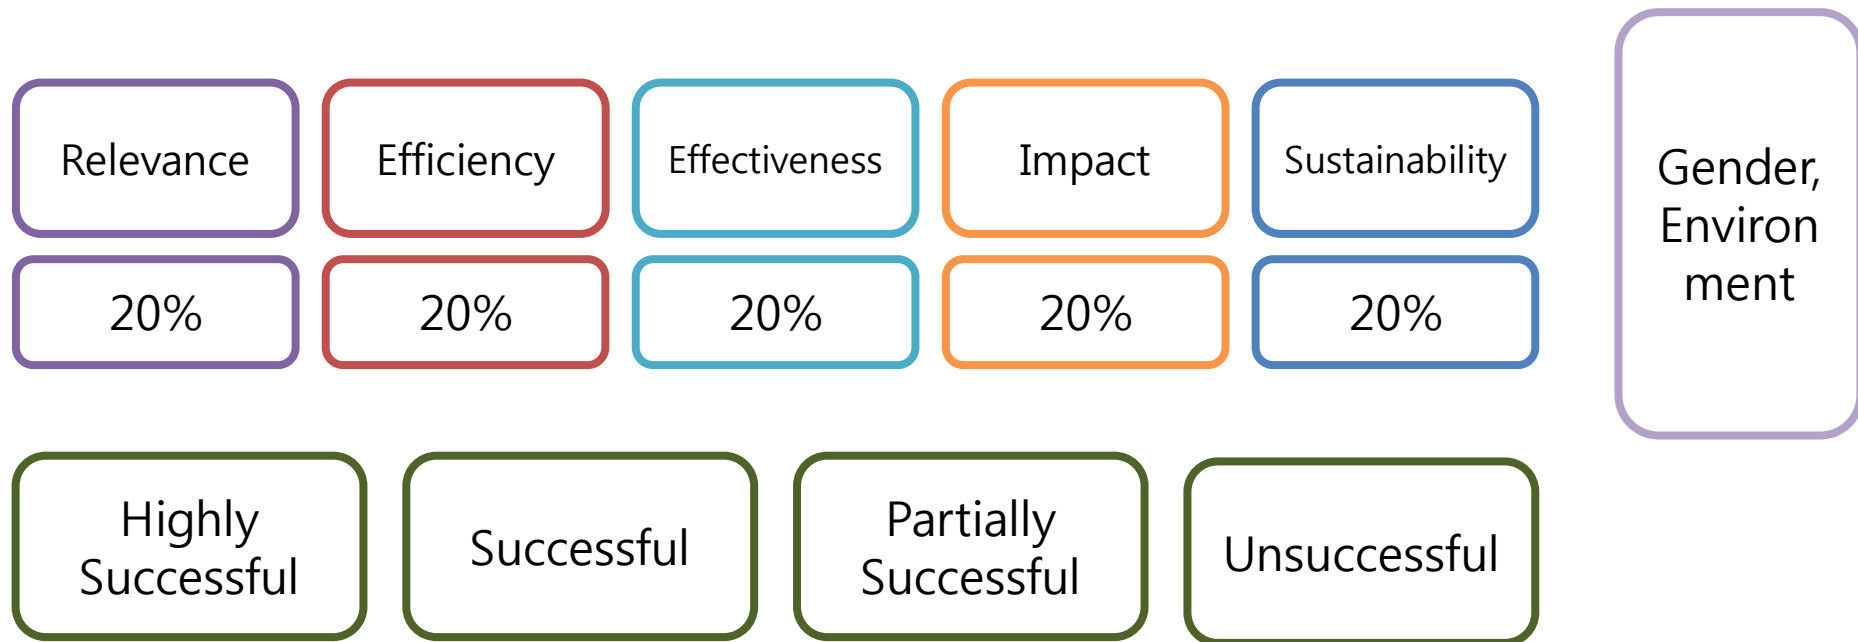

➤ After the Implementation

- O&M → Partner country government (relevant governmental body) → EDCF

Overview of EDCF Evaluation

- Primary purpose of project evaluation
 - “improve the quality of EDCF assistance by incorporating lessons learned and recommendations drawn from similar projects in the past while ensuring accountability and transparency by providing evaluation results to various stakeholders”
- Part of Overall Performance Management

Evaluation Criteria (Development Project Loans)

EDCF's Evaluation

➤ Ex-Ante Evaluation

- Preparation & Appraisal phase

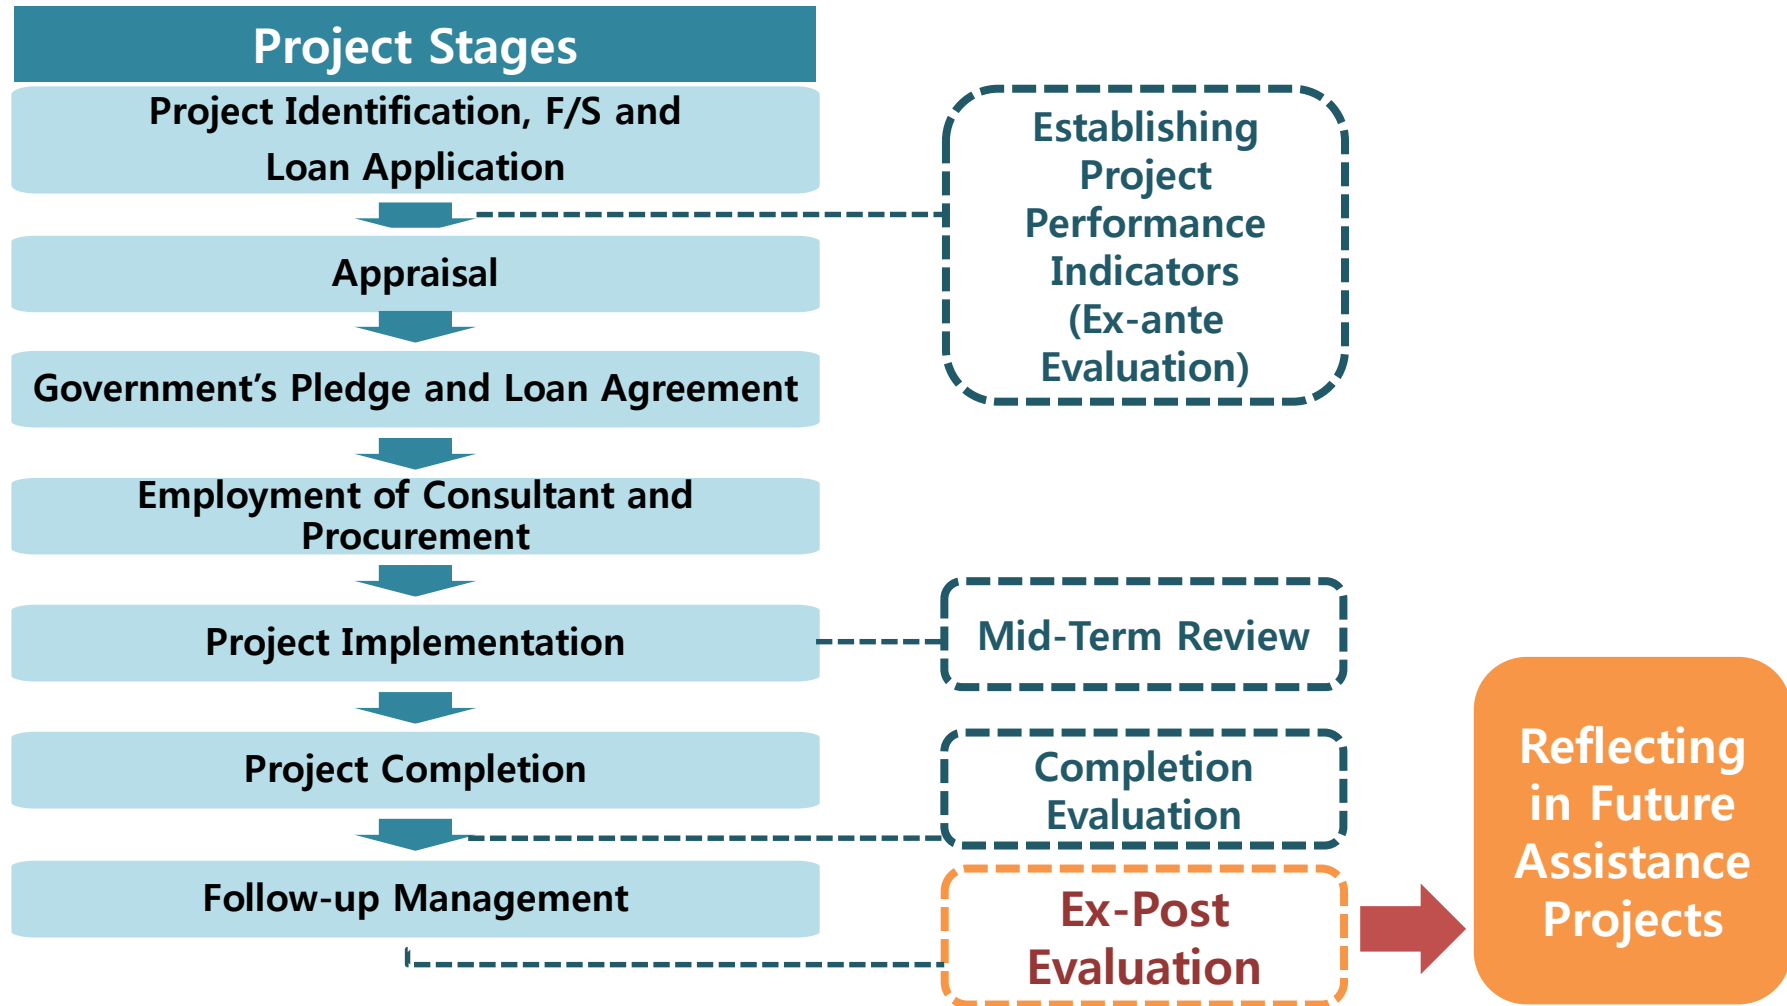

➤ Midterm review, Project Completion Evaluation

- Partner country government
- Country Offices / Implementation Offices

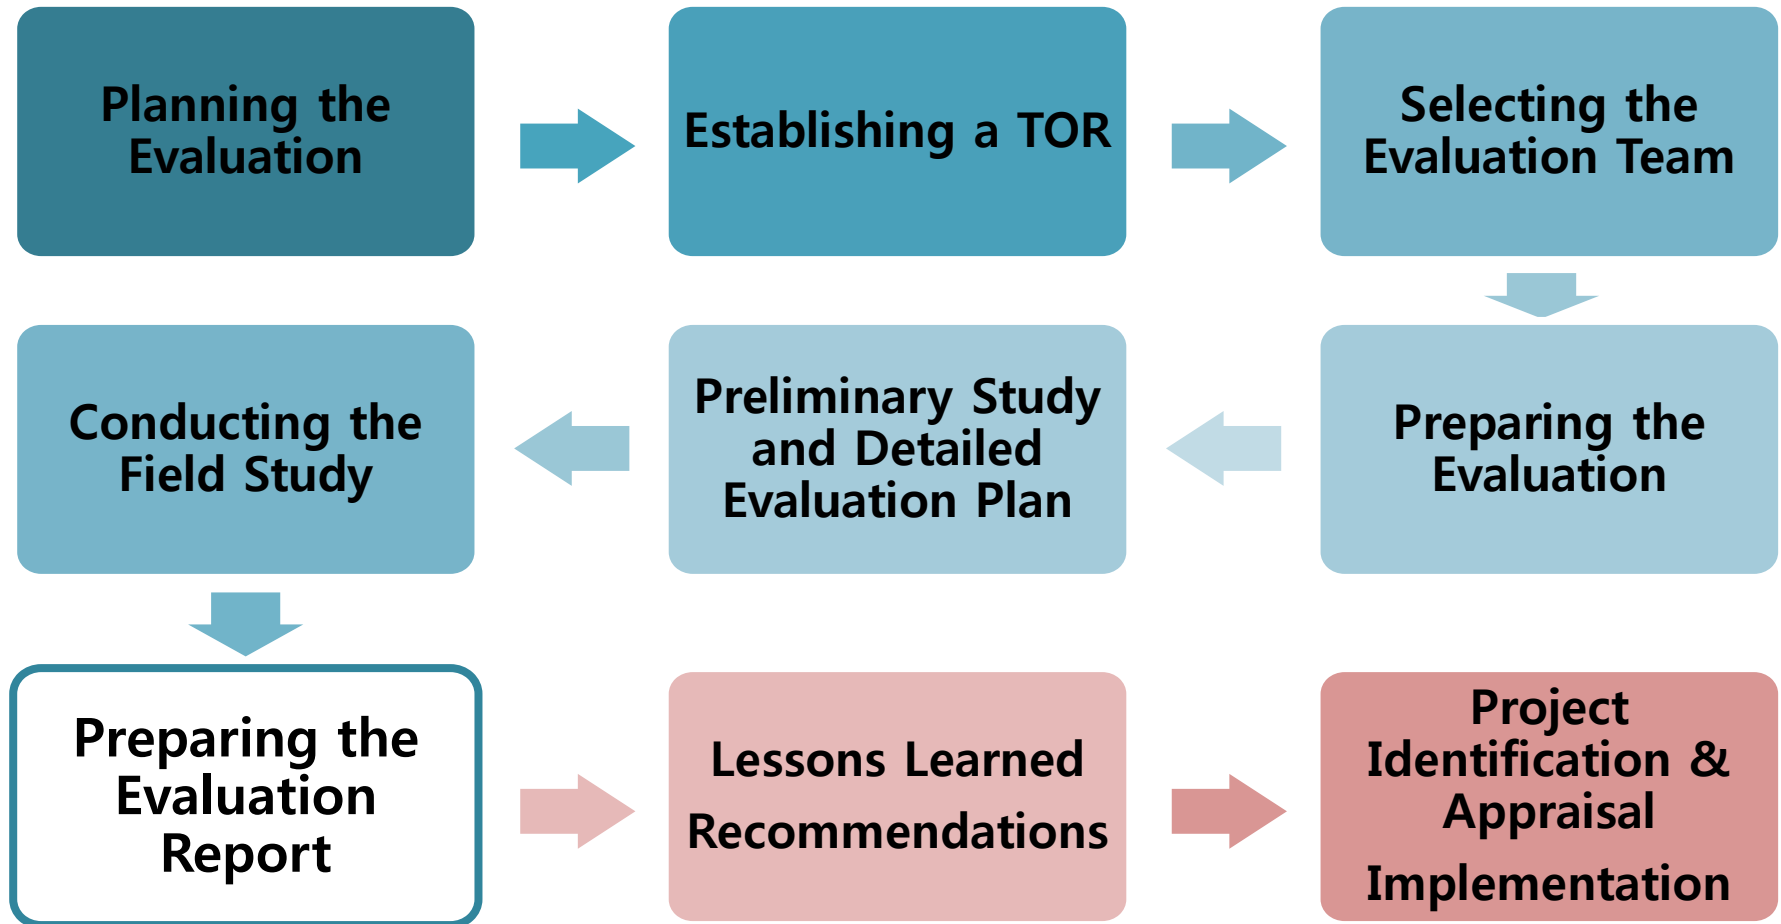

➤ Ex-Post Evaluation

- EDCF Evaluation Team

Evaluations in Project Cycle

Evaluation Procedures

SGDs & EDCF

- **New goal, New framework**
- **More emphasis on Infrastructure**
- **New aspects of Infrastructure**
 - Climate change
 - Gender
- **New Financial Tools**

SGDs & EDCF

New Challenges in Evaluation

➤ New aspects of Infrastructure

- A good infrastructure serves many roles = All roles (often outcome) should be measured and evaluated

➤ New Financial Tools

- Public-private sector led development cooperation = New partner activity evaluation tool required

➤ Finding a right experts

Thank you!
