

Technical meeting to strengthen gender indicators and related data production and use
in response to policy demands in Viet Nam

19 – 22 March 2019, Hai Phong, Viet Nam

Session 3: Project work: Results and lessons learned from the application of EPIC

Country project work consolidation

Group No. 4

Objective number/s of the Gender Equality Strategy reviewed: Article 1

- Objective 1
- Objective 6

Article number/s of the Gender Equality Law reviewed: Article 11 – 18 – 33 - 41

Names of group members:

- Ms. Nguyen Thanh Cam (VWU)
- Ms. Hoang Thu Hang (Research Center for Female Labour and Gender)
- Ms. Luong Minh Ngoc (MARD – DMA)
- Mr. Pham Xuan Luong (GSO)
- Ms. Tran Minh Hue (MPI)

**Considerations to improve the latest draft
National Statistical Indicators on Gender Development (NSIGD)**

Issues for action (IA) in the policy documents not covered by indicators in the NSIGD (policy demand exists but no indicator to monitor)

1) List at least three IA which did not have a corresponding indicator in the NSIGD	2) Would you consider adding an indicator/s to the NSIGD? (yes/no)	3) If yes, propose the indicator (from other national or regional/global sets) or provide recommendations for formulation
1. women holding key leading positions in socio-political organizations	yes	Percentage of women holding key leading positions in socio-political organizations by ethnic group, young
2.		
3.		

Improving/enhancing current indicators in the NSIGD

1) List at least 3 indicators from the NSIGD which need to be modified (e.g. more specific level of disaggregation)	2) Why is the modification needed?	3) Suggest the modification
1. domestic violence victims rendered with health counseling	In NSIGD this indicator not measured both domestic violence and health counseling	Percentage domestic violence victims rendered with health counseling by sex, age group, ethnic group, urban and rural
2. domestic violence victims rendered support and care at domestic violence victim-assisting establishments	Not measured victim by sex, age, ethnic referred support and care	Percentage of domestic violence victims rendered support and care at domestic violence victim-assisting establishments by sex, age group, ethnic group, urban and rural
3. human trafficking victims will return through handover and rescue will be entitled to support and community integration services.	Not measured victim by sex, age, ethnic referred support and care	Percentage of human trafficking victims will return through handover and rescue will be entitled to support and community integration services by sex, age group, ethnic group, urban and rural

Suggestions for streamlining the NSIGD (indicators exist but potentially no policy demand)

1) List at least 3 indicators in the current NSIGD which are not relevant to monitor the policy documents analysed	2) Should these indicators be dropped completely or are they relevant for other national policy documents? Explain.
1. Percentage female among police officers	relevant for other national policy documents
2. Percentage female among judges	relevant for other national policy documents
3. Percentage of women 20-24 years old who were married or in union before age 15 and 18	relevant for other national policy documents

**Considerations for future review of the
Gender Equality Strategy/ Gender Equality Law in Viet Nam**

Potentially relevant IA and TG not in the current Gender Equality Strategy/Law in Viet Nam-- for future consideration (1)

List CCs that did not have any IA in the articles of the policy documents analysed*	Is the CC valid/relevant in Viet Nam's context (Yes/No & Why)	If yes, is /are there any relevant IA you can recommend for this CC that could be included in the policy document in the future?	Is /are there any TG you can recommend for this IA/CC comb.?
4 - Compensation	Yes	Decent Compensation for victim	separated, divorced women by domestic violence
3 - Capability based services	Yes	Not capability based services	Children & women (victim of domestic violence and human trafficking)
6 - Cultural responsiveness	Yes	Support for the mental health and livelihood	Children & women (victim of domestic violence and human trafficking)

Pls note: the CC that did not have any IA in the articles you reviewed may however have IA in other articles of the policy document reviewed by other groups

**Potentially relevant IA and TG not in the current
Gender Equality Strategy/Law in Viet Nam-- for future consideration (2)**

Are there any other CC (beyond the 29 in EPIC) relevant in Viet Nam's context?	List any corresponding IA	List any corresponding TG
1.		
2.		
3.		

**Potentially relevant IA and TG not in the current
Gender Equality Strategy/Law in Viet Nam-- for future consideration (3)**

List at least three IA with missing TG in the policy documents analysed.	Recommendations to add TG
1. women participating in Party committees	ethnic, young
2. female deputies elected to the National Assembly	ethnic, young
3. female deputies elected to the People's Councils at all levels	ethnic, young

Lessons learned from the application of the EPIC tool

Lessons learned from the application of the EPIC tool

Value-additions of using the tool for national planning processes related to GEWE

1. Measure and evaluate all regulations in policy and law
2. Don't miss any target group/ policy

Opportunities for application of the tool and its results for GEWE in the coming year

1. Revised national statistic indicator gender development set
2. Revised gender equality law/ strategy and other relevant policy/law
