

Mapping & Localization Exercise

Tanielu Tagimaiala Isara
SAMOA BUREAU of STATISTICS

3 Phase-Approach

- **Yesterday**
 - Assessment
 - Process
- **Today**
 - Summary
 - Commitment
 - Issues
- **Tomorrow**
 - Way Forward

YESTERDAY

- Sustainable Development Goals (SDGs)
- Assessment
 - Review the classification of indicators
 - Identify NA Indicators
- Process
 - Preliminary Framework of Indicators
 - Mapping data availability (SBS vs Sectors)
 - Localization of Indicators
 - Refinement of Indicators

➤ Summary

■ After the Assessment

- 76 Indicators (Tier I)
- 45 Indicators (Tier II)
- 54 Indicators (Tier III)
- 58 NA & 9 TBC

■ After SBS Mapping Exercise

- 54 SBS Indicators (Tiers I & II)

■ Localization Exercise

- Harmonized and contextualized global indicators with local indicators

- **Commitment**
 - Populating the framework
 - Develop Metadata
 - Concepts & Definitions
 - Methodology
 - Data Sources

➤ Issues

- Availability vs Accessibility
 - Scattered all across the sectors
 - Legislations and Policies
- Data Quality
 - Verification process takes time

TOMORROW

➤ Way Forward

- SBS to complete
 - Populating the framework
 - Developing metadata for each SDG indicator
- SBS to facilitate the assessment & collection of SDG indicators from different sectors
- SBS to develop an SDG Data-Hub
