# **Outline for Building China's Strength in Transport**

# Outline for Building China's Strength in Transport

---

The outline on building China's strength in transportation, issued by the Communist Party of China Central Committee and the State Council, has been published by the People's Publishing House.

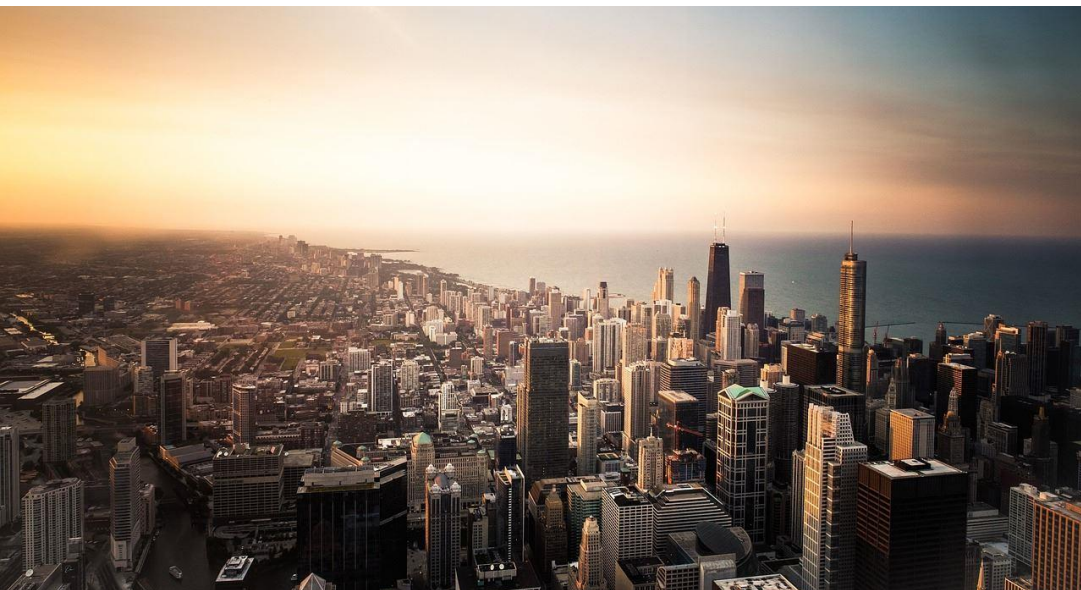

# Outline for Building China's Strength in Transport

---

One stage: 2020---2035 , Basically building China's strength in transportation, join the ranks of countries with strong transportation network ;

Second stage: 2036---Mid century , Finishing building China into a country with strong transportation network , become leading powers in the world in terms of transportation.

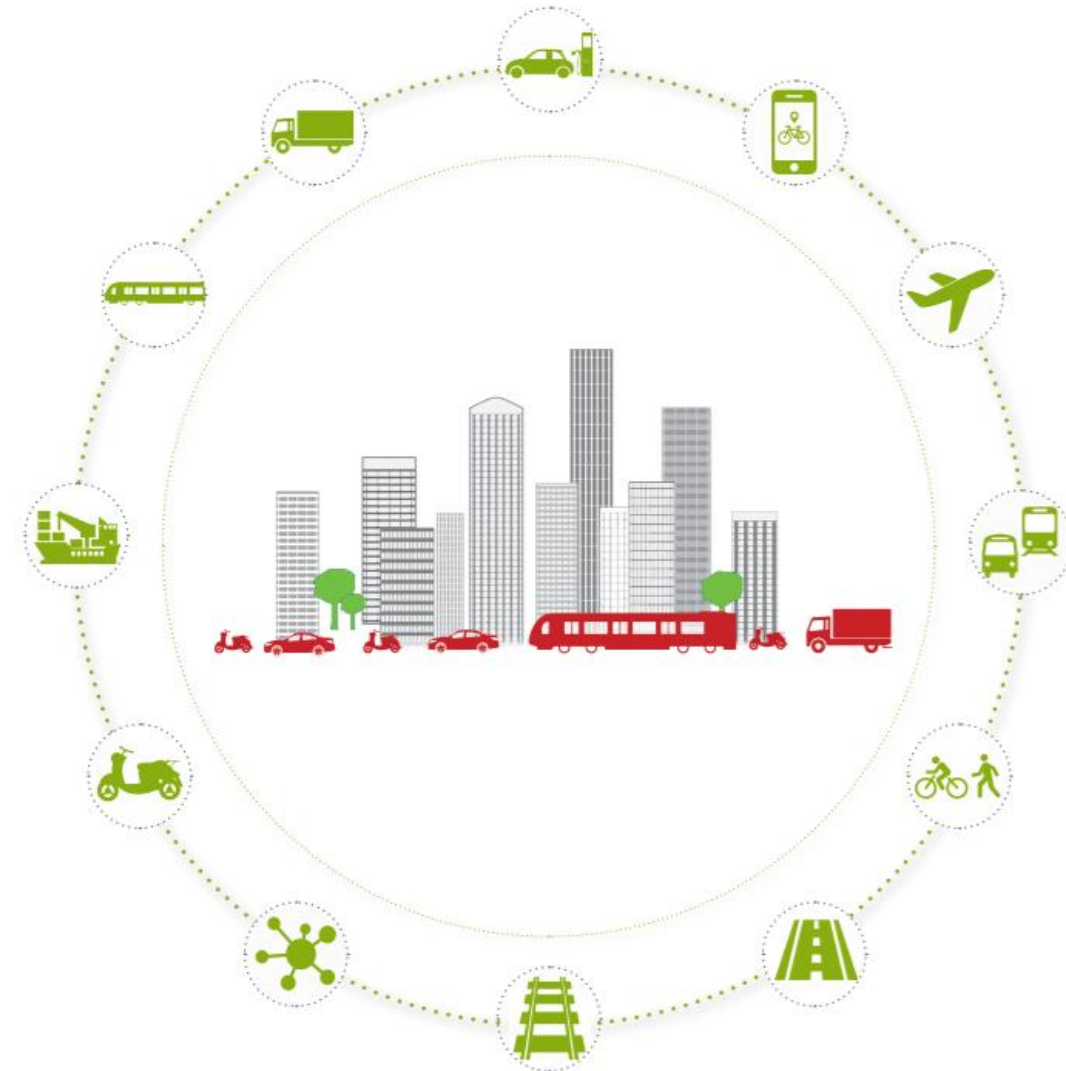

# **13<sup>th</sup> Five-Year Plans in the Transport Sector(2016-2020)**

# 13th Five-Year Plans in the Transport Sector(2016-2020)

- Central government guideline for sustainable and low carbon transport development
- A framework for the implementation bodies on different administrative levels in China

# The key targets for transport in the 13th Five-Year Plan for Economic and Social Development of the People's Republic of China 2016-2020

## High Speed Railway

Construction of a total length of **30,000 km**, connecting more than **80%** of all large cities

## Rural Transportation

Construction of **1 million km** of rural roads to facilitate rural development; interlink all administrative villages via paved roads and shuttle bus services

## Expressways

## Transportation Hubs

## Development of Corridors

Construction of cross border corridors and main corridors along One Belt One Road

transit lines

new energy vehicles

## City Cluster Transportation

Intercity rail networks for Beijing-Tianjin-Hebei, Yangtze Delta, Pearl River Delta, middle-reach Yangtze, Central Plain, Chengdu-Chongqing region and Shandong Peninsula city clusters

## Harbor and Shipping Facilities

Improvement of port clusters (Bohai sea rim, Yangtze and Pearl river delta) and inland waterways, specialized berths for containers, crude oil and Liquefied Natural Gas (LNG)

## Cycling and Walking

Improvement of urban transport facilities for cyclists and pedestrians and promotion of cycling

## Development of Corridors

Construction of cross border corridors and main corridors along One Belt One Road

# The main columns of transport development in China's 13th Five-Year Plan

①

- **Green and Low Carbon Transportation**

Innovation driven promotion of public transport, efficiency in transport, alternative fuels, new energy vehicles, cycling and pedestrian infrastructure and general „green“ technologies in transport

②

- **Interconnected and Multimodal Transportation**

Promotion of multimodal passenger and freight hubs, optimisation of existing transport hubs and strengthening of interconnectivity of transport infrastructure

③

- **Smart Transportation**

Innovation driven promotion of IT and Big Data based transport management and operation, online ticketing and vehicle and fleet automation

④

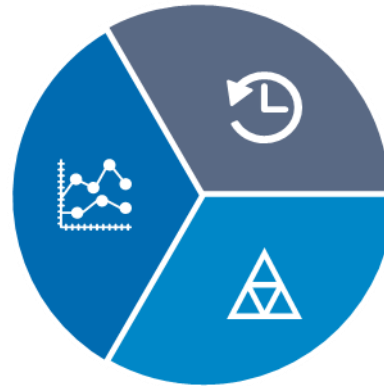

- **International Transportation Networks**

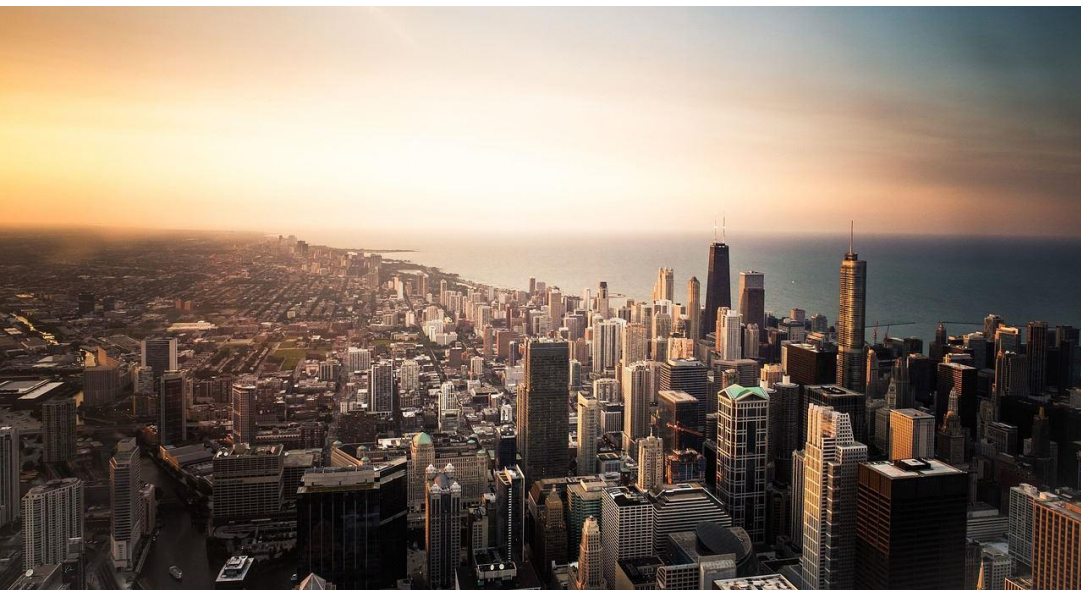

Promotion of cross border infrastructure development, expansion and improvement of international and domestic airports and ports

⑤

- **Safe Transportation**

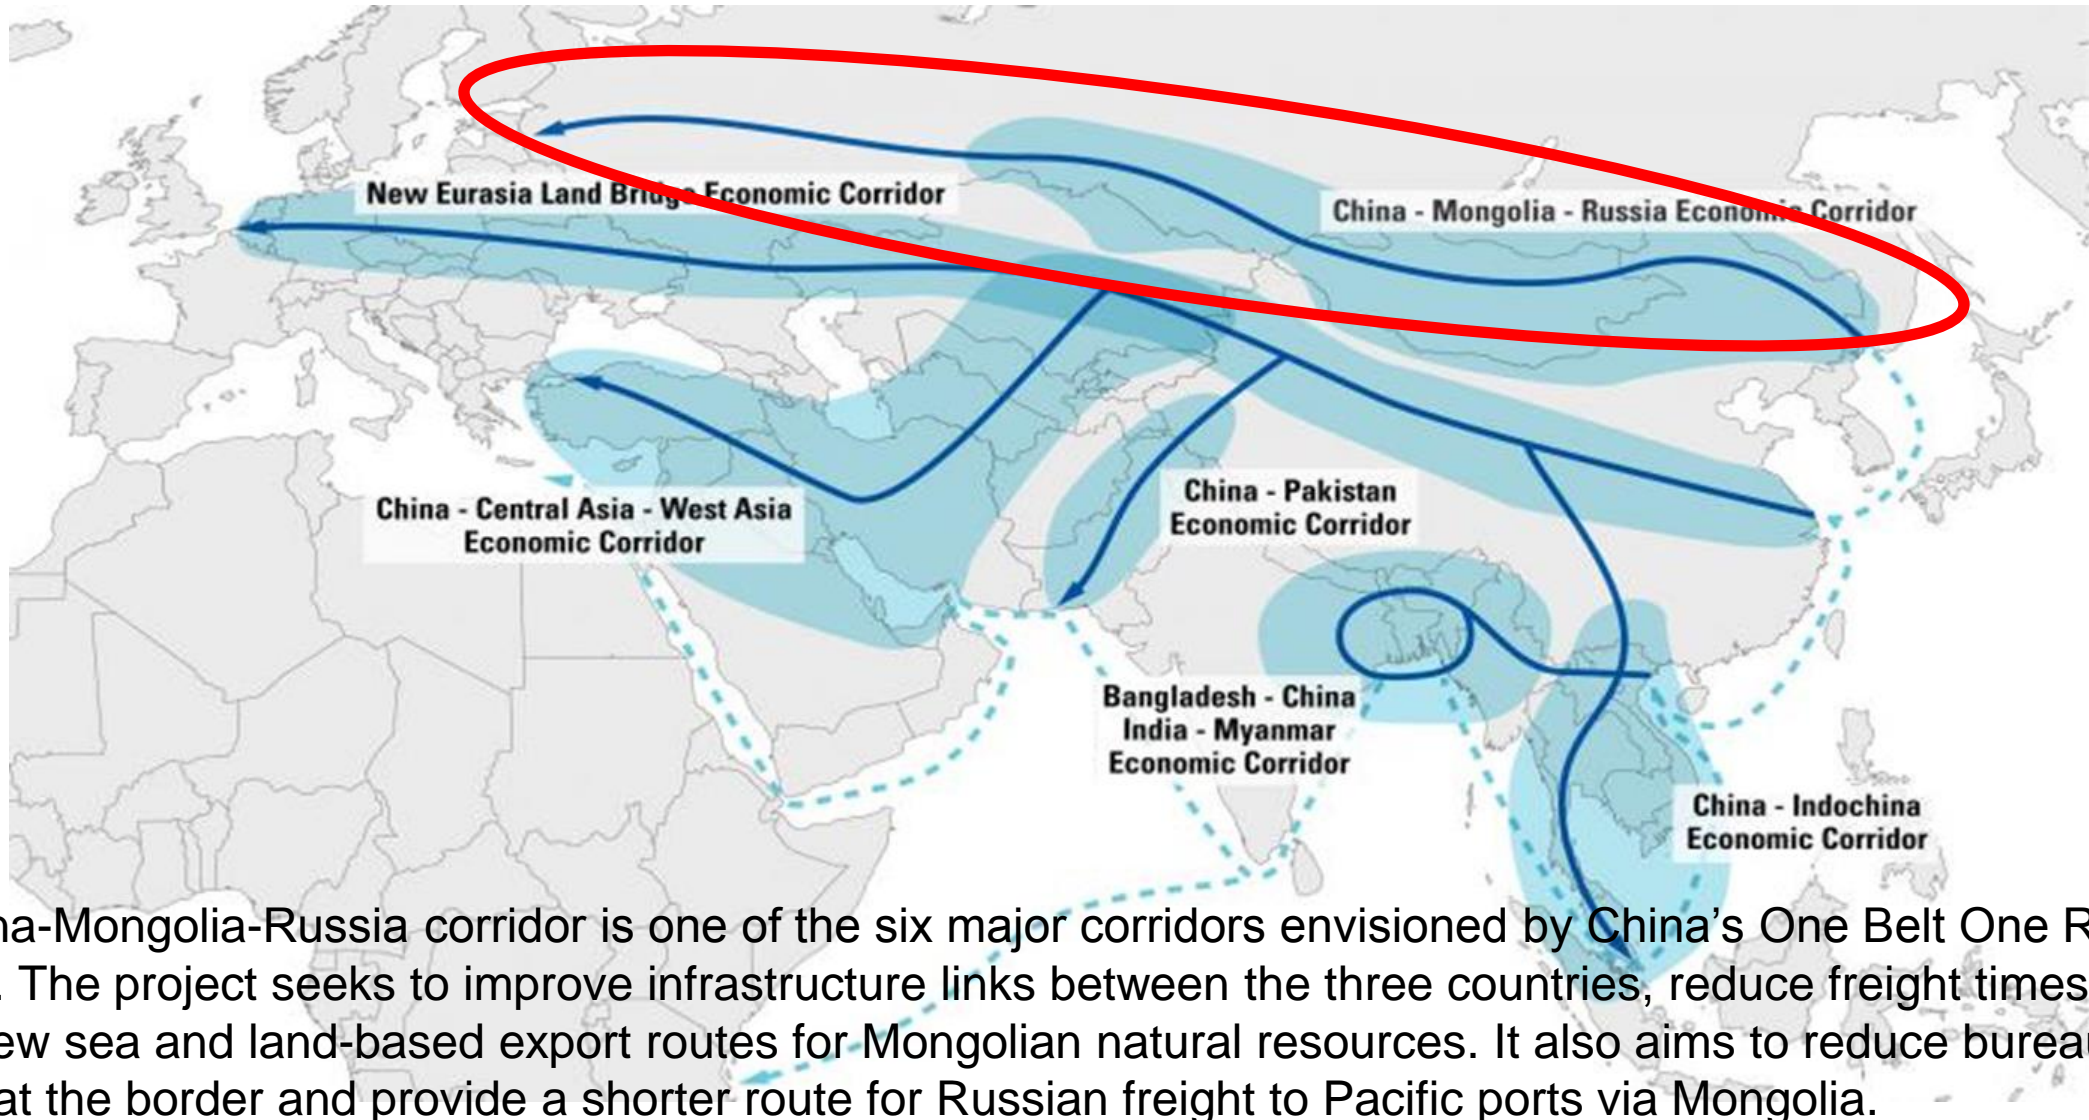

Improvement of safety standards and emergency rescue

# **China-Mongolia-Russia Transport Corridor**

# China-Mongolia-Russia Transport Corridor

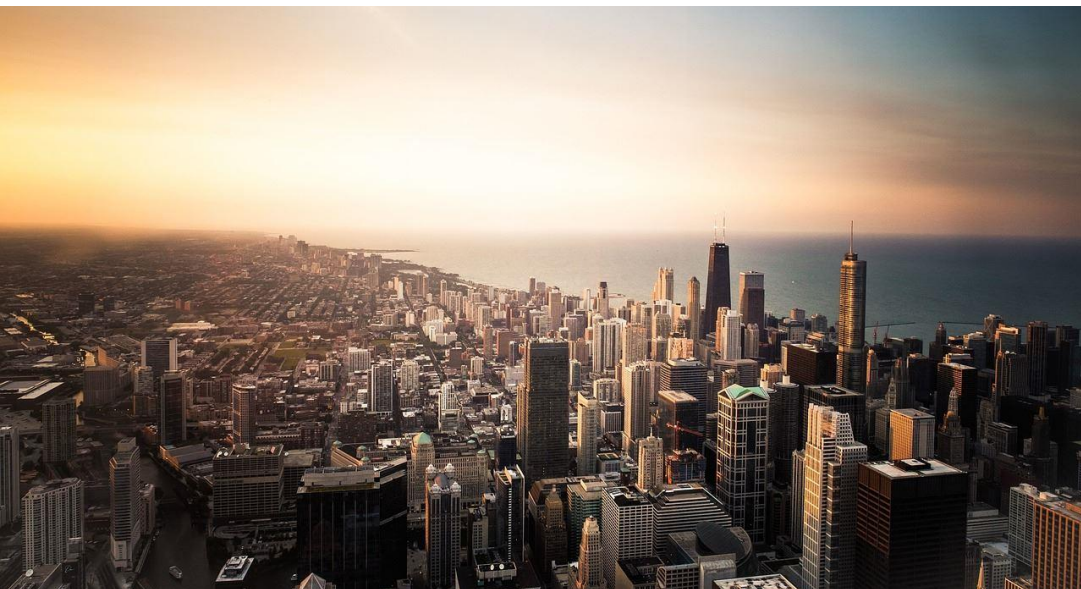

The China-Mongolia-Russia corridor is one of the six major corridors envisioned by China's One Belt One Road Initiative. The project seeks to improve infrastructure links between the three countries, reduce freight times, and create new sea and land-based export routes for Mongolian natural resources. It also aims to reduce bureaucratic barriers at the border and provide a shorter route for Russian freight to Pacific ports via Mongolia.

# China-Mongolia-Russia Transport Corridor

"There is a huge area for cooperation existing between China, Russia and Mongolia. The construction of the China Mongolia-Russia economic corridor would connect China's Silk Road Economic Belt to Russia's transcontinental rail plan and Mongolia's Prairie Road program," the Chinese Foreign Ministry said in a statement.

# **National transportation facilitation commission of China**

# Composition of the committee

**Ministry of  
Transport**

**Ministry of Foreign  
Affairs**

**National  
Development and  
Reform Commission**

**Ministry of Public  
Security**

**Ministry of  
Finance**

**Ministry of  
Commerce**

**General  
Administration of  
Customs**

**General administration  
of quality supervision,  
inspection and  
quarantine**

Open attitude towards the signing of international transport cooperation agreements

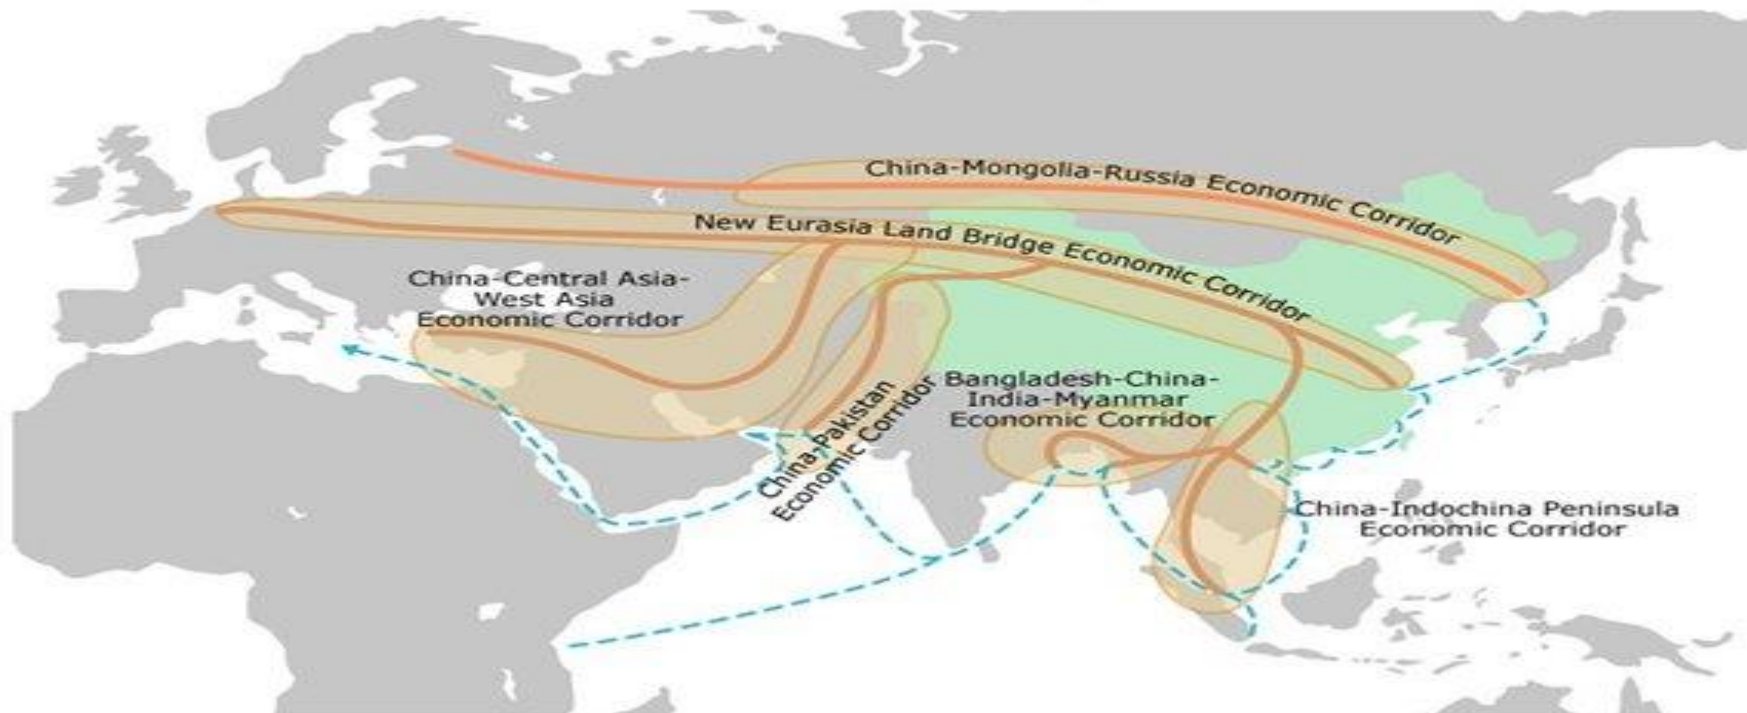

No restrictions on route setting of Transport Corridors

Promoting TIR implementation

**The Belt and Road Initiative: Six Economic Corridors Spanning Asia, Europe and Africa**

**China has signed more than 130 bilateral and regional transport agreements with countries involved in the Belt and Road**

**Intergovernmental Agreement of the Shanghai Cooperation Organization Member States on the Facilitation of International Road Transport. (2017)**

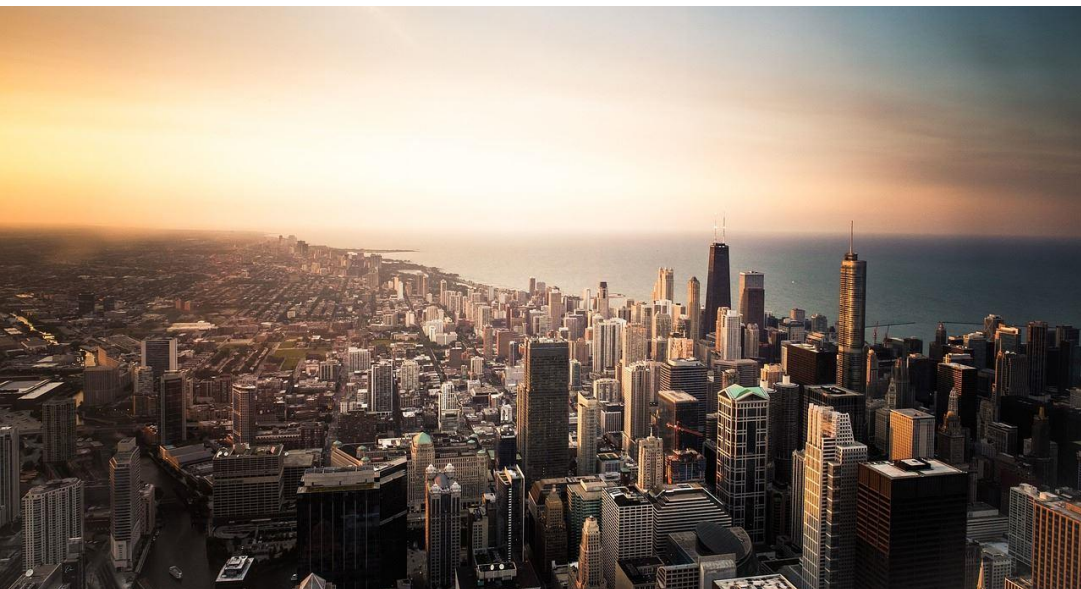

**Intergovernmental Agreement on International Road Transport along the Asian Highway Network(2016)**

**Agreement on Access to and from the Sea and Transit Transport through China's Territory by Mongolia(2016)**

**Agreement between the Government of the People's Republic of China and the Government of the Russian Federation on International Road Transport(2018)**

# Challenges and opportunities

# Convenience and Regulation Go Hand-in-Hand

China is committed to safeguarding economic globalization and free trade, and is actively involved in the reform of the World Trade Organization. We faithfully honor our commitments and are resolute in safeguarding our lawful rights and interests.
