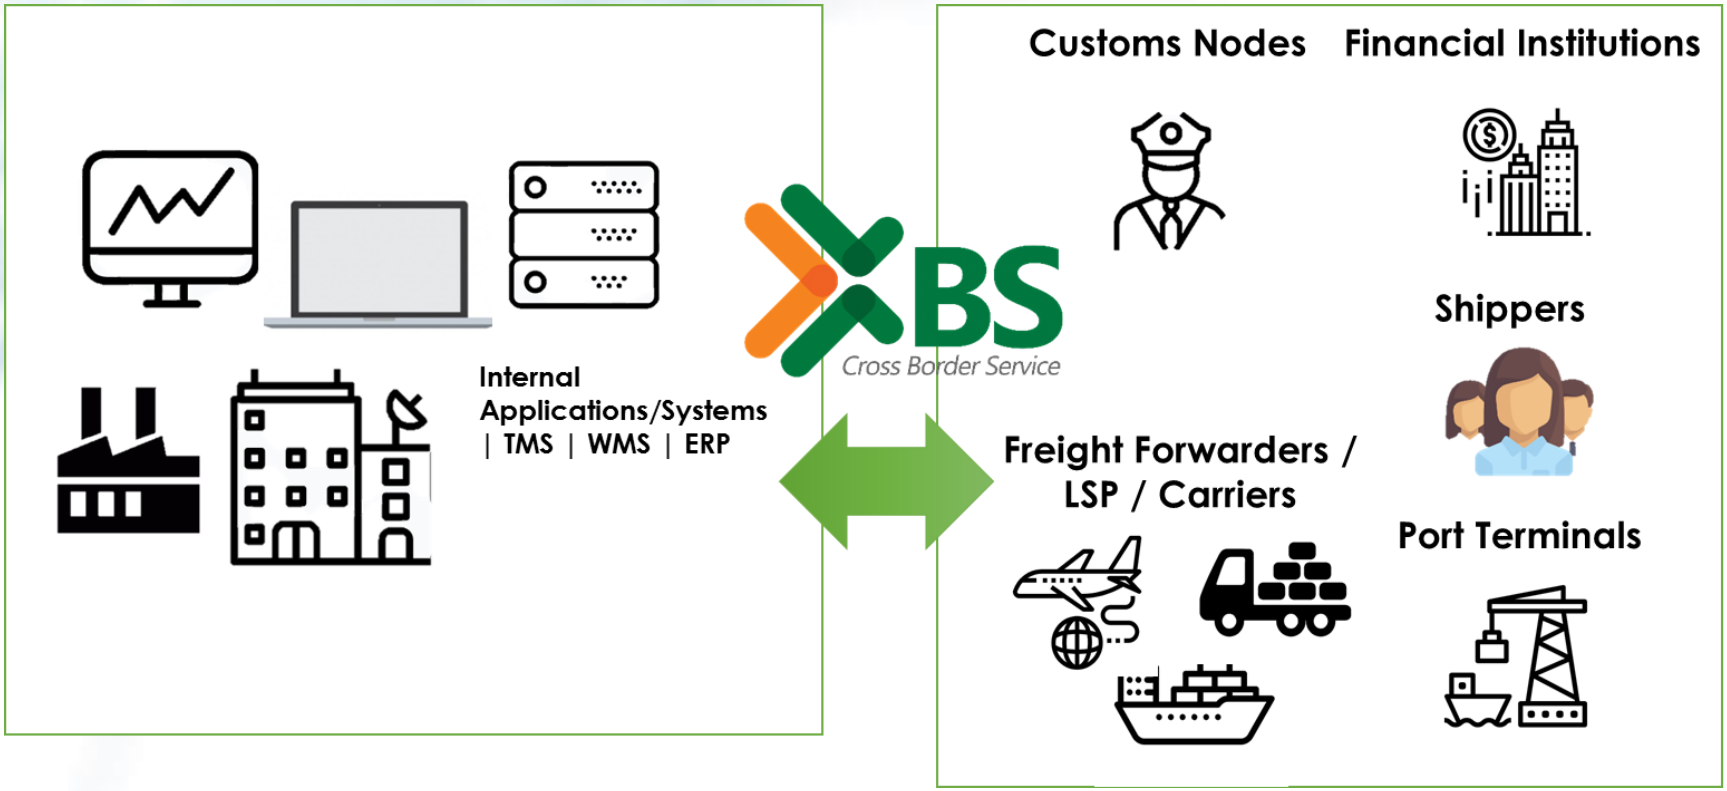
Cross Border Data Exchange for Customs Declaration

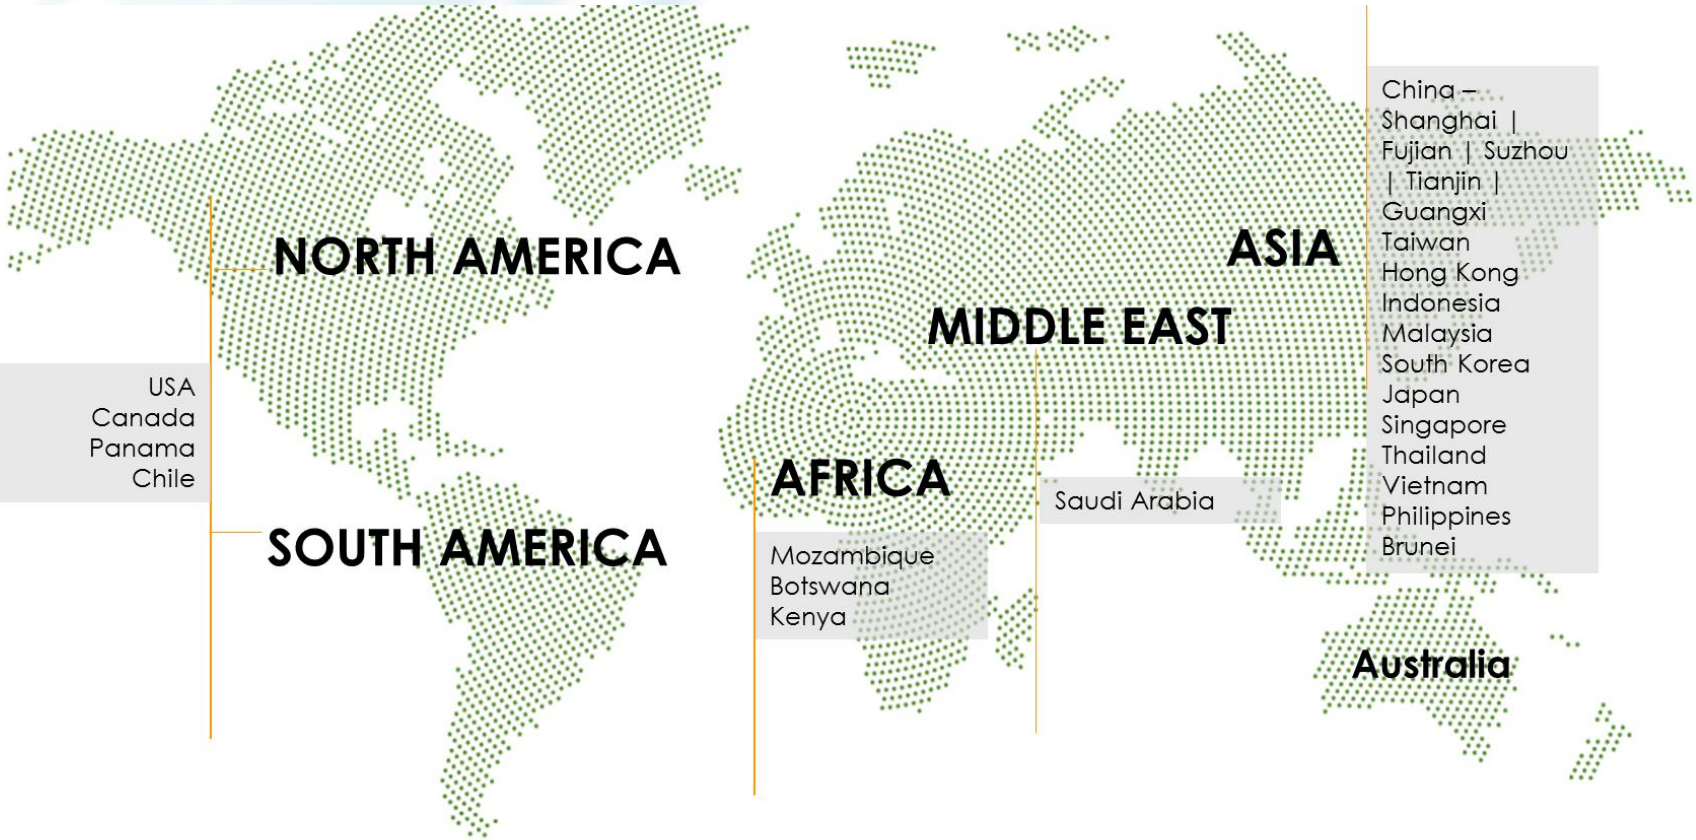
PAA.net
Pan Asian e-commerce Alliance

Global Single Electronic Window/Gateway

Global Single Electronic Window /Gateway **assists companies manage, exchange and transform trade data and documents**, from disparate systems and between parties for **:**
SEAMLESS B2B COLLABORATION AND TRADE COMPLIANCE ACROSS COUNTRIES

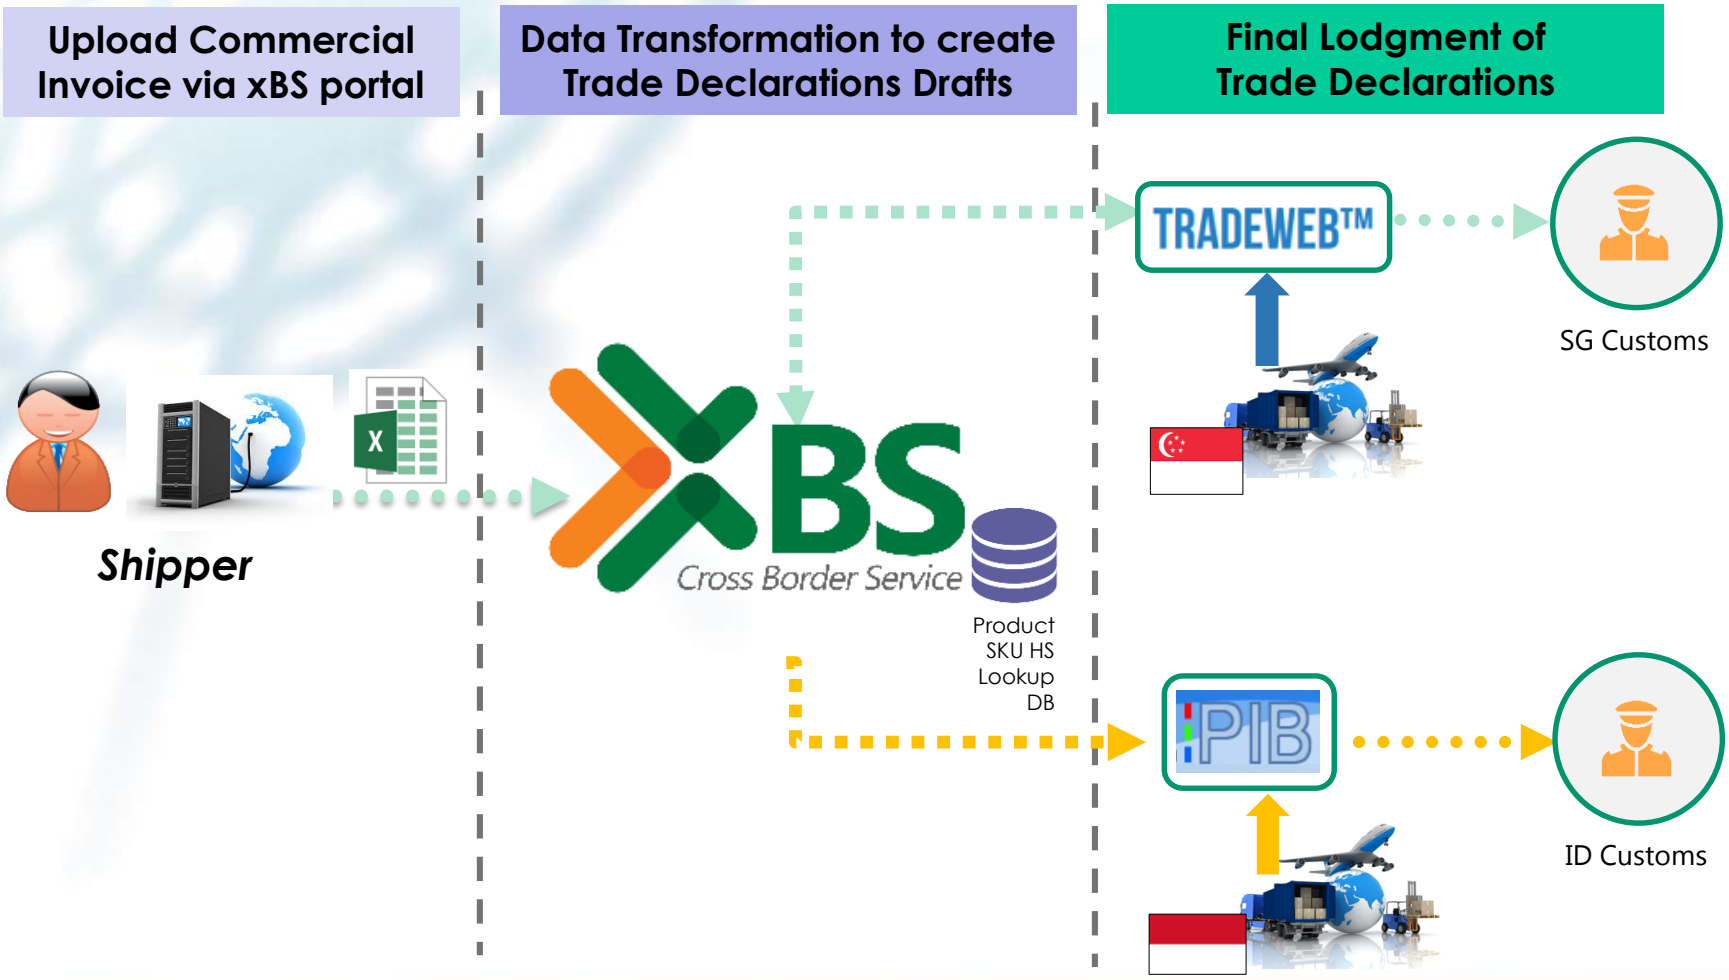


Customs Nodes



Business Scenario : Export SG / Import ID

Shipper & FF Business Scenario (Facilitate both export and import declarations via 2 countries' Customs Declaration systems)



Business Impact

In the case of trade declarations for Singapore/Indonesia, the actual time savings :

Without xBS

Data Entry for filing declarations with invoice containing 300 items requires
>4 hours

With xBS

Data Entry for filing declarations with invoice containing 300 items requires
<1 hour

Man Hours

* Derived from man-hours saved; Effort spent in correcting errors, resolving matters arise due to delay are not included.

Benefits

~90%

Data population in declaration draft created - reduces the turnaround time required for permit preparations

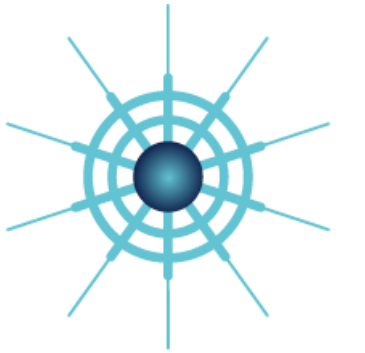
~0%

HS Codes misclassification as auto population of HS code reduces error and time from manual classifications

2.5x

Productivity gained with seamless trade documents exchange and trade permits preparation

Demonstration on Cross Border Data Exchange for Customs Declaration



Thank You!
