

What can China Contribute to the SDGs?

Prof. Dr. Li Xiaoyun, Chair of CIDRN

1. Potential Role of Broad Capacity

1.1 Financial contribution: different form of financial resources ;

1.2 Sector transfer: scale is big, Japan and Korea

1.3 Job opportunity to be released ;

1.4 Big market

2. Experiences and Lessons from Past

Economic growth: equal conditions from the beginning;

poverty reduction: 87%-7%;

2.1. agriculture;

2.2 . Labor-intensive industries;

2.3. FDI and technology innovation

Key experiences: the role of state etc.

3. Current Strategy : further lessons to sustainable development

3.1 challenges: inequality, rural-urban divide; environment; corruption;

3.2 Current strategies: overall goals: economic, social , environmental and political

3.3. measures: economic, social, environmental and political

3.4: difficulties: economic growth slow down 6.5% etc.

3.5. how to link those to the field of development cooperation?

Thanks!
