Recent Disability Data Collection

- One question has been added to Population Census 2008, i.e. Physical/Mental Disability, if any. From the question 10 Priority Tables on Persons with Disability were produced as follows
 - E1 Physically/Mentally Disabled Persons by 5-year Age Group and Sex.
 - E2 Physically/Mentally Disabled Persons by Category of Disability, Marital Status and Sex.
 - E3 Physically/Mentally Disabled Persons (since birth) by Literacy in any language, Level of Education, 5-year Age Group and Sex.
 - E3A Physically/Mentally Disabled Persons (since birth) by Category of Disability, Literacy in any Language, Level of Education and Sex.
 - E4 Physically/Mentally Disabled Persons (after Birth) by Literacy in any language, Level of Education, 5-year Age Group and Sex.
 - E4A Physically/Mentally Disabled Persons (after birth) by Category of Disability, Literacy in any Language, Level of Education and Sex.
 - E5 Physically/Mentally Disabled Persons (since birth) by Main Activity, 5-year Age Group and Sex.
 - E5A Physically/Mentally Disabled Persons (since birth) by Category of Disability, Main Activity and Sex.
 - E6 Physically/Mentally Disabled Persons (after birth) by Main Activity, 5-year Age Group and Sex.
 - E6A Physically/Mentally Disabled Persons (after birth) by Category of Disability, Main Activity and Sex.
- In Socio-Economic Survey, there are questions on 1/Type of Disability, 2/Level of difficulty, 3/Cause of Disability, and 4/Consequences on education, living, employment, services. Basic result is included in the survey report.
- In Labour Force Survey, there are questions on Difficulty in Seeing, Hearing, Walking, Remembering, self-Care. Basic result is also included in survey report

Pros and Cons in Recent Disability Data Collection

Pros:

- Inclusion of disability question into census or survey is an economic way in disability data collection

Cons:

- The main purpose of the survey is not for disability, resulting in inaccurate and incomplete disability information
- The survey analysis will not target disability comprehensively
- The definition and methodology vary from time to time

Information in Connection to Goal 5 (1)

**Sex Ratio by Residence and Broad Age Group of Persons with Disability,
Cambodia, 2008**

Age Group	Sex Ratio		
	Total	Urban	Rural
(1)	(2)	(3)	(4)
Total	129	125.7	129.6
0 - 14	129.2	123.4	130
15 - 64	141.7	136.5	142.7
65+	75	68.2	75.9

Conclusion and Recommendation

- There is a need for baseline disability survey to provide reliable and comprehensive disability information for policy making, planning, and intervention program
- Need for human resource development in concept, methodology, analysis, data processing, policy formulation and advocacy
- Need for advocacy strategy and its implementation.

Thank you!
