

**11:10 – 15.20 hrs. (Meeting Room E)**

**Breakout Group 2: Documents and processes in  
cross-border paperless trade**

31 March 2015,  
Bangkok, Thailand

## **Report Breakout group session 2**

### **Group Cross-border Paperless trade documents and processes**

- Status of the Automation of customs system and Single Windows were introduced by the participating members
- The countries highlighted the need for intergovernmental arrangements for the recognition of electronic trade documents and mutual recognition of the certification process.

## Breakout group session 2

- Some countries were concerned about the faked document, data security and integrity, and technical solution such as PKI and document repository system were introduced.
- Since there is a MRA on the SPS certificate among CIS countries, the pilot project on electronic SPS exchange can also be pursued.

## Breakout group session 2

- Everybody agreed with the certificate of origin, SPS certificate (health, phytosanitary, pharmaceutical) and manifest as the top priority document, and transit documents for landlocked countries.
- Timeline: 2-3 years, under the condition that support is given by the authorities.
