

Web Portal Platform & Project Pipeline of Asia-Pacific PPP Network

XIE Fei

China PPP Center, Ministry of Finance

Manila, Philippines August 8, 2019

An Efficient, Effective & Sustainable Asia-Pacific PPP Network

- Member States' PPP Units
- Their Line Ministries

Roles:

- Publish project information to **facilitate project transaction**;
- Publish policy information to **help investor make decision**;
- Share knowledge & experiences to **enhance PPP units' capacity**.

- Investors: MDBs, Internl. Institution Investors, etc.
- Bilateral Cooperation
- Private Sector
- Other Partners (networks, forums)

Key Structure of Web Portal Platform

Each member state
has a column & log-
in account.

Policy Information

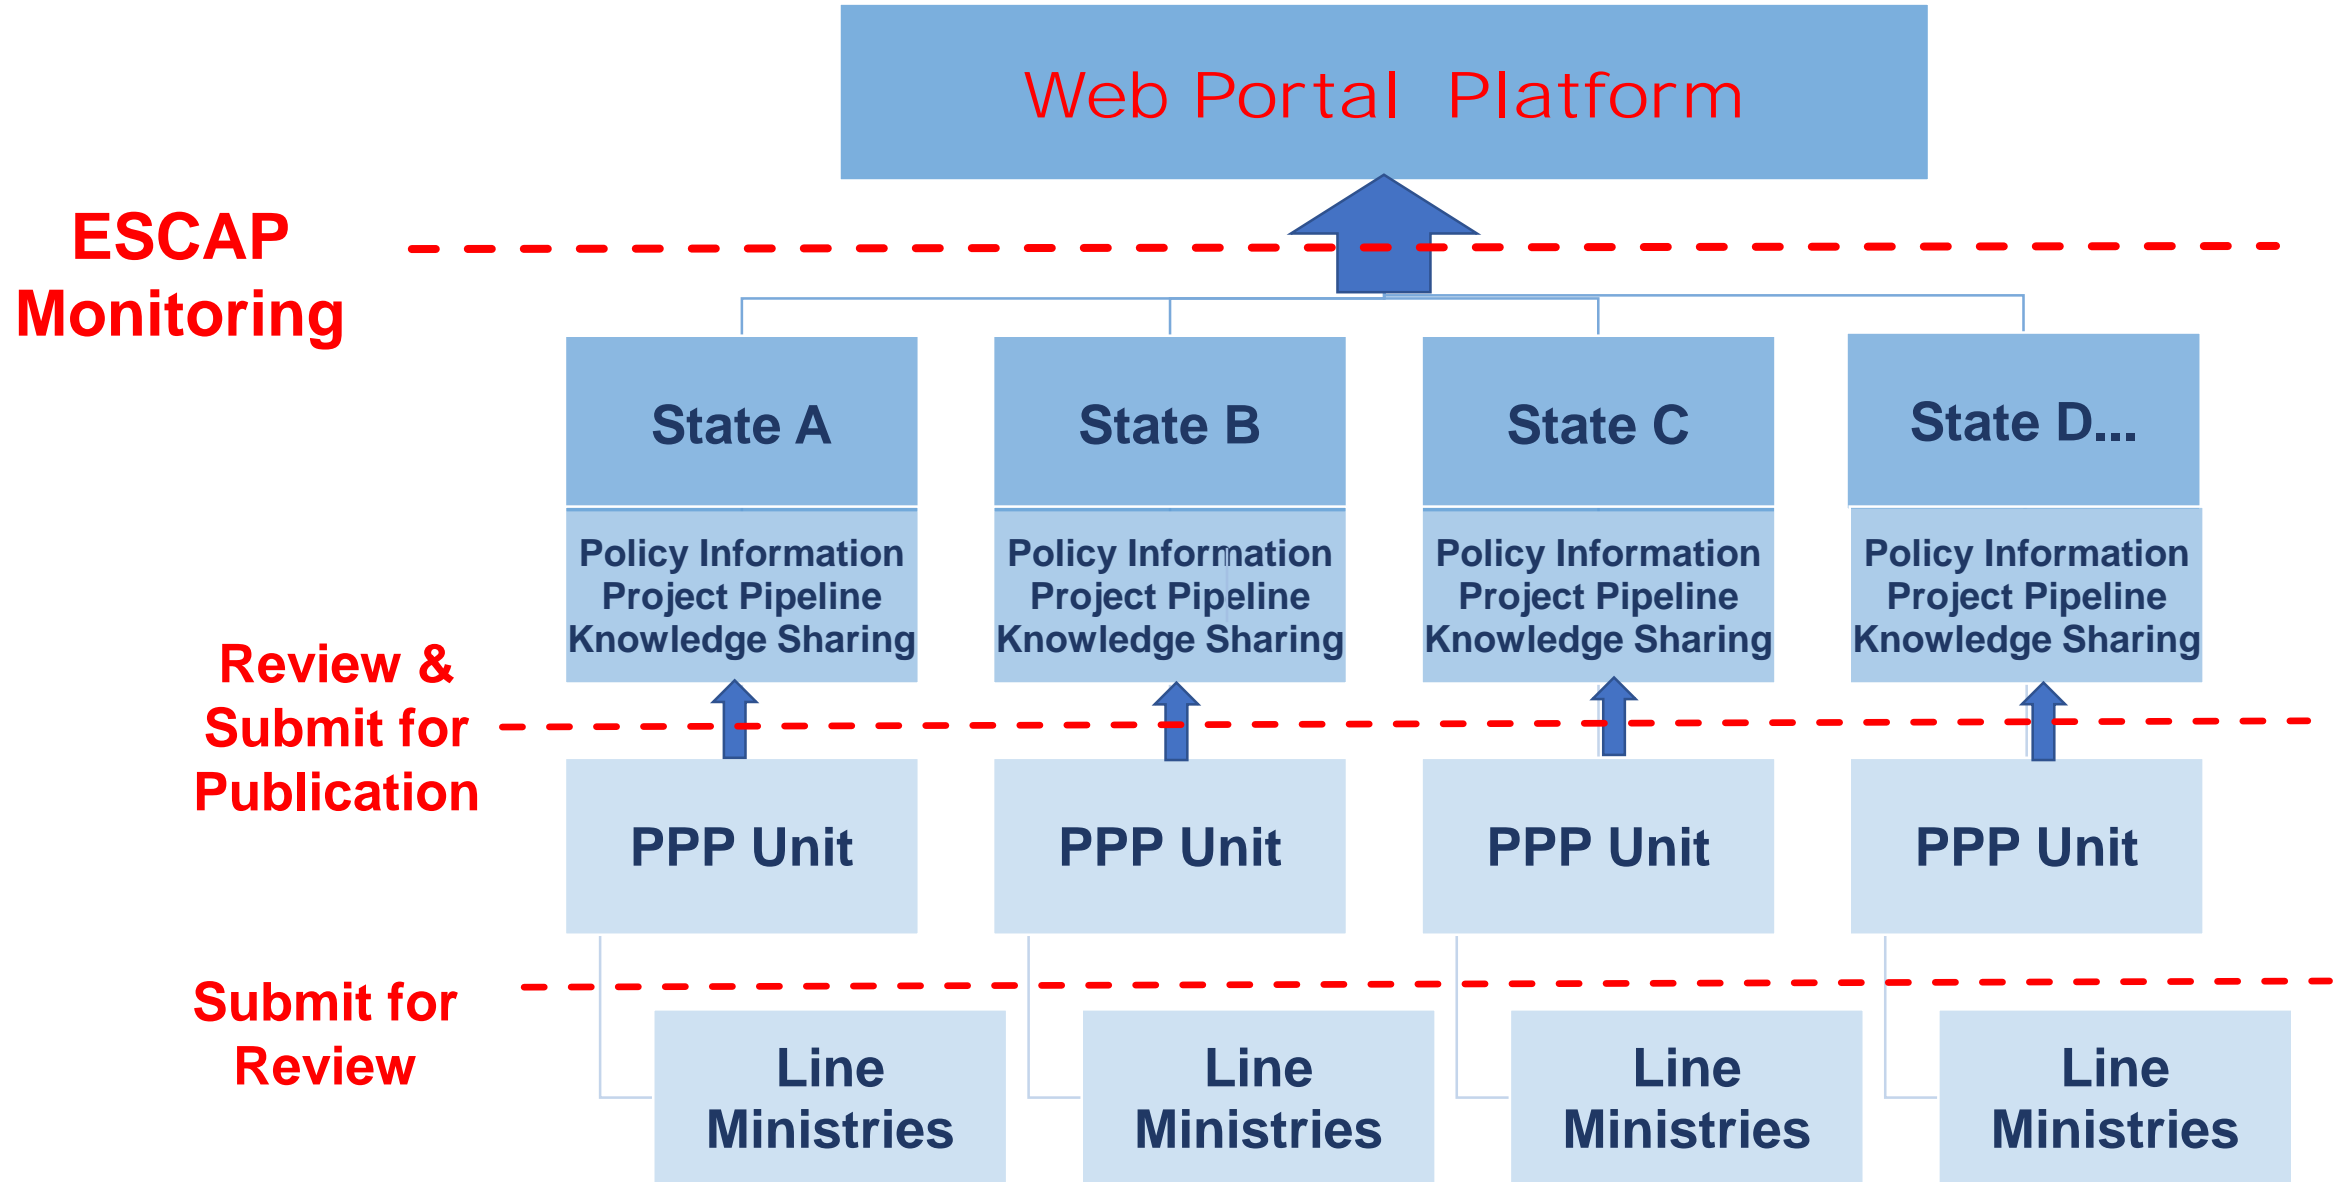

- Members States' Laws, Regulations, Policies, Guidelines & Standards

Project Pipeline

- Project Information in Agreed Template
- Procurement News

Knowledge Sharing

- Good Practices/Case Studies
- Experiences Learned

Make Web Portal Platform Operate Effectively & Sustainably

**Demanders
(PPP Units)**

- Provide policies & project information **timely & accurately**
- Update information timely

ESCAP

- Leads establishing the Platform
- Pushes PPP Units to provide/update project information
- **Bridges** demanders & suppliers

Suppliers

- Provide investment appetite
- Provide project information **needs** for their making decision

Challenges & Solutions

Challenges

- Information Input & Update
- Bankable Project Preparation
- Successful Project Transaction
- Capacity Building

Solutions

- **PPP unit**, cooperating with line ministries, plays a key role;
- **Unified template** to show project information;
- ESCAP plays a leading role & coordinates with **all partners** to facilitate project transaction and the PPP Units' learning by doing;
