National Experiences and Challenges in Monitoring and Reporting on SDG 11

Edi Setiawan / Indonesia

26th – 29th March 2018

Bangkok, Thailand
What is the country experience in monitoring and reporting on SDG 11?

The ongoing activities directly related to producing data for SDG 11:

• Creating Metadata Indicators for SDGs
• Developing the indicators by Adjusting variable in Household Survey → NSO
• Providing annual report continually → Line ministry
• Creating National Indicators as a proxy for global Indicators

A framework in place to guide the monitoring:

• National Action Plan on SDGs (RAN) : framework for monitoring and evaluation
• Technical Guidelines for Monitoring and Evaluation
• Evaluation System : KRISNA (SDGs inline with National Medium Term Development Plan)
• National Committee on SDGs Lead by Ministry of planning and supported by all related stakeholders
• Dashboard SDGS : Visualize achievement of SDGs Indicators
What are the Key Challenges in monitoring and reporting on SDG 11?

- Lack of data
- Different concept and definition
- Some indicators related to more than one ministry
- Comparability and Sustainability of Data Sources from other Ministry

How are these challenges being overcome including any short-term/long-term strategies put in place to address them?

- **Short term**: coordination among stakeholders to provide data
- **Long term**: - creating meta data as a guidance for monitoring and reporting
  - adjusting the question on HH Survey
What is the country experience in monitoring and reporting on SDG 11?

• Out of the 15 SDG 11 indicators, is your country capable to monitor and report on all of them? If not, which ones are they reporting on? Why is the country not able to monitor and report on others?

<table>

</tr>
</tbody>
</table>

- Most of global indicators unmatched with the variable and existing questions asked by the HH Survey
- Indicator global developed by more than one national indicators → using proxy
What are the opportunities in Monitoring SDG 11?

- Legal support: Presidential decree no 59 year 2017: implementation of SDGs
- SDGs: mainstreaming issues to National Development Medium and long term Plan
- The availability of Regional Disaster Risk Reduce Strategy Document (help mitigate disaster risk at all level)
- The availability of many Household Surveys
- Good Coordination among stakeholders under the RAN
Partnerships for SDG 11 monitoring & best practices

Statistics Indonesia : 31 % of indicators
SDGs 11 : 3 of 15 Indicators

- Ministry of Home Affairs (annual report) 11.1.1.(b), 11.1.1.c,
- Ministry of Transport (annual report) 11.2.1 (b),
- Ministry of Public of Works and Housing (annual report) 11.3.1 (a), 11.3.1 (b), 11.3.2 (b), 11.4.1(a), 11.6.1 (b), 11.7.1 (a)
- Ministry of Planning / National Development Planning Agency 11.3.2 (a), 11.b.1, 11.b.2
- National Agency for disaster Management 11.5.1 (a), 11.5.1 (b), 11.5.1 (c), 11.5.2 (a), 11.b.1, 11.b.2
- National Agency for Meteorology, Climatology, and Geophysics 11.5.1 (c)
- Ministry of Environment and Forestry 11.6.1 (a)
Non-Traditional Data Collection

• Big Data
• MPD (Mobile Positioning Data) : day population, transportation Plan, Housing plan
• Satellite Data for disaster risk manajemen
Best practices for Indonesia with regards to monitoring SDG 11

- Support from the Government (Presidential Law/decree No 59 year 2017 about implementation of SDGs)

- Creating Metadata on SDGs

- Develop National Action Plan (RAN) : Commitment of all stakeholders (ministries and agencies)

- SDG 11 : one of the priorities development program in Government Work Plan

- Monitoring SDG 11 : the system called KRISNA (inter ministries collaboration plan)

- Developing SDGs Dashboard to visualize and socialize the achievement of SDGs target
