The Government of Japan recognizes the importance of economic statistics.

In December we published the results of the National Accounts of Japan, which are aligned with 2008SNA, and hosted the “25th Meeting of the Wiesbaden Group on Business Registers” last month in Tokyo. In conjunction with the meeting, we also cooperated with the “Workshop on Statistical Business Register for Developing Countries” held by UNSIAP and UNSD in Chiba.

In addition, it is a great honor for us to provide support for the conduct of the first-ever economic census in Nepal under the “Project on Capacity Development for the Implementation of Economic Census 2018 in Nepal.”

If any other countries in the ESCAP region wish support for economic statistics from Japan, please let us know, and we would contact relevant department and consider the possibility.
