

Guidelines for Multi-Stakeholder Partnerships (MSP) for the 2030 Agenda Asia and the Pacific

Caridad Canales

Natalie Harms

Environment and Development Division

Partnerships for the 2030 Agenda

- The achievement of the 2030 Agenda and the Sustainable Development Goals **will require all hands on deck.**
- It will require different sectors and actors **working together** in an **integrated manner.**
- **Cross sectoral and innovative** multi-stakeholder partnerships (**MSPs**) will play a crucial role.

Sustainable Development Goal 17

- SDG 17 Recognizes MSPs **as important vehicles for mobilizing and sharing knowledge, expertise, technologies and financial resources** to support the achievement of the sustainable development goals in all countries, particularly developing countries.
- SDG 17 cuts across all goals – through the **means of implementation**.

ESCAP and UNU-AIS collaboration

- Both organizations plan to promote a science-policy interface in the region through joint analytical work and **development of evidence-based instruments that support policymakers and other stakeholders to achieve the 2030 Agenda.**
- The first knowledge product is a set of guidelines to strengthen multi-stakeholder partnerships:
 - **Addressing opportunities and challenges**
 - **enhancing implementation capacity**

Guidelines: what we want to know

- Role of partnerships in SDG implementation and in overcoming systemic challenges (related to data, finance, technology, capacity building, etc.) – **identifying areas of opportunity**
- Key dimensions for achieving and sustaining successful MSPs – **elements for success**
- Steps for planning and implementing a MSP – **understanding the process**
- Factors that promote or hinder the development and implementation of MSPs – **challenges and underlying issues**

1

What are the challenges for implementing SDGs and what roles can MSPs play?

2

Key factors for successful MSPs- Is there anything missing? How could the guidelines support Member States in generating these key success factors?

3

Based on your experience, on what areas could partnerships be a useful tool for implementing national plans for SDGs?

Guidelines: your support

Next Steps

- Developing the guidelines (drafting stage).
- Validation workshop in November during **SDG Week**.
- Alignment with **DESAs guidebook**.
- Integrate into **Help Desk**
- Launch at **APFSD** in March 2018.

Thank you
