

Lessons from experiences of Thailand-Japan / TICA-JICA partnership

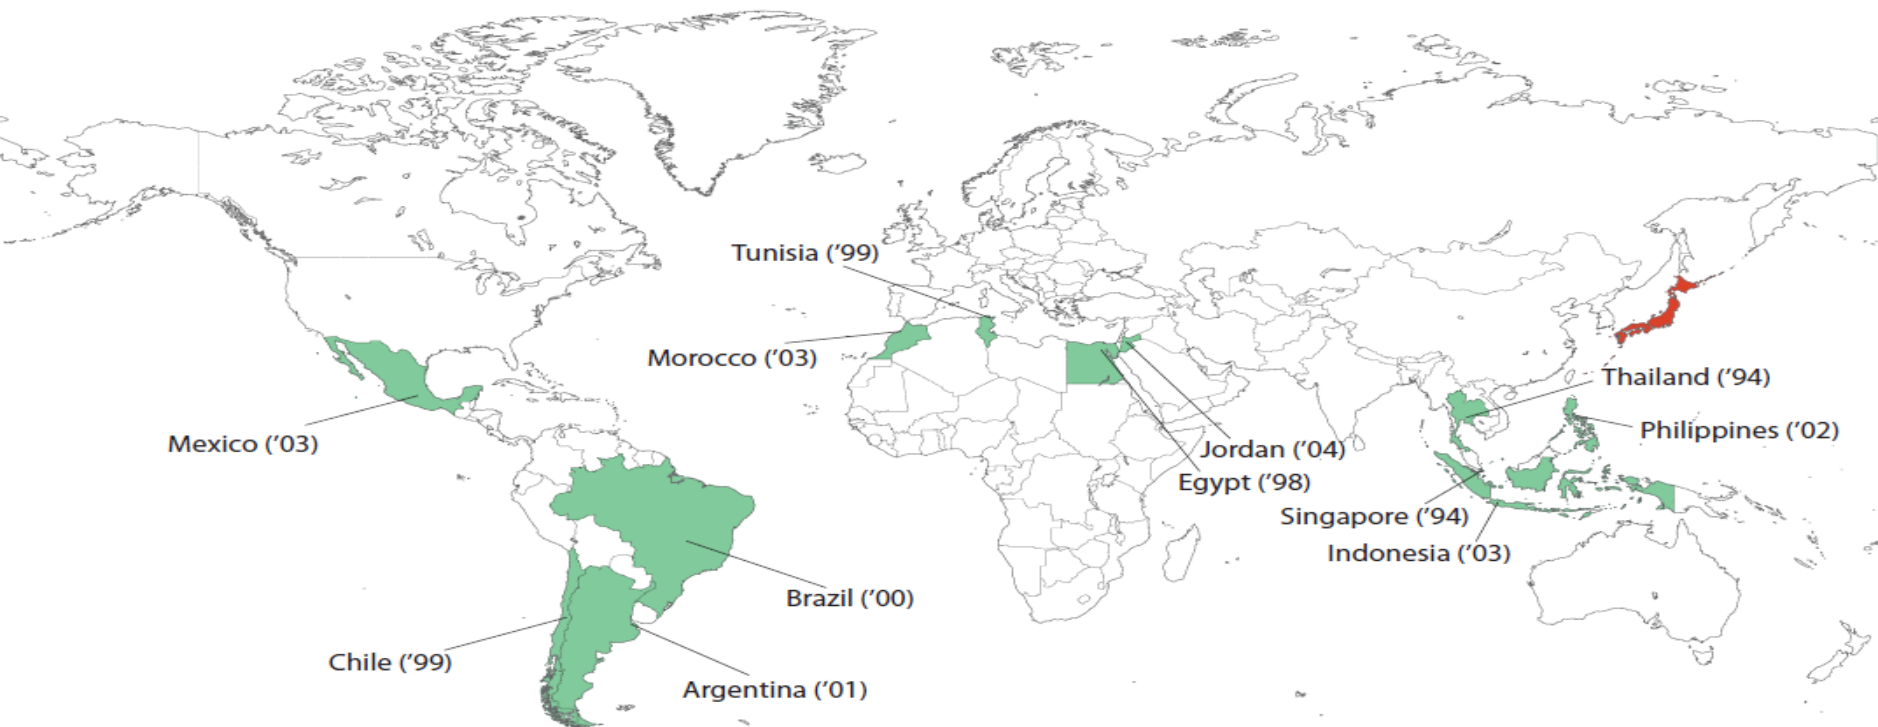

27th June 2018, Bangkok
**REGIONAL CONSULTATION ON SOUTH-SOUTH COOPERATION
IN ASIA AND THE PACIFIC**

Ryutaro MUROTANI
**Director, Office for Global Issues and Development
Partnership,
Operations Strategy Department,
JICA (Japan International Cooperation Agency)**

- I. JICA's South-South & Triangular Cooperation (Outlook)
- II. JICA's South-South & Triangular Cooperation (Thailand)
- III. Case Study
 - A) Japan-Thailand-Myanmar Triangular Cooperation
 - B) Asia-Pacific Development Center on Disability (APCD)
- IV. Key Messages

I . JICA's South-South & Triangular Cooperation (Outlook)

- Technical Cooperation to other countries (1954~)
- Third-Country Training Program (1975~) : 3,260 participants (2017)
- Third-Country Expert (1994~) : 64 experts (2017)
- Partnership Program (1994~) : 12 countries; Singapore, Thailand, Egypt, Tunisia, Chile, Brazil, Argentina, Philippines, Morocco, Mexico, Indonesia and Jordan

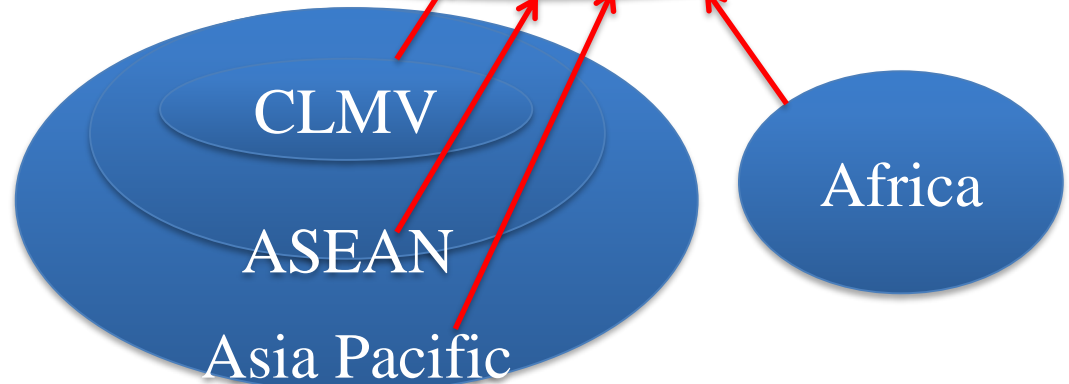

Partnership Program Member Countries (as of November, 2009)

II. JICA's South-South & Triangular Cooperation (Thailand)

Japan-Thailand Partnership Program
(JTTP) II since 2003

Partnership Arrangement
JICA-TICA since 2017

III. Case Study 1 (Japan-Thailand-Myanmar Triangular Cooperation)

- In addition to SSC under JTPP, based on the PA between JICA and TICA, **triangular cooperation for Myanmar** has started.
- After **Joint FF-mission to Myanmar**, TICA, JICA and FERD (Myanmar) agreed to implement triangular cooperation for 3 fields: (1) Tourism, (2) Foot and Mouth Disease, and (3) Disaster Prevention and Management.
- **In response to the request from Myanmar**, the 3 parties agreed to add Aquaculture as a new field in 2017.
- Implementation costs are shared between JICA and TICA.

III. Case Study 1 (Japan-Thailand-Myanmar Triangular Cooperation)

(1) Tourism (Restaurant Service)

(2) Foot and Mouth Disease

(3) Disaster Prevention and Management

(4) Aquaculture

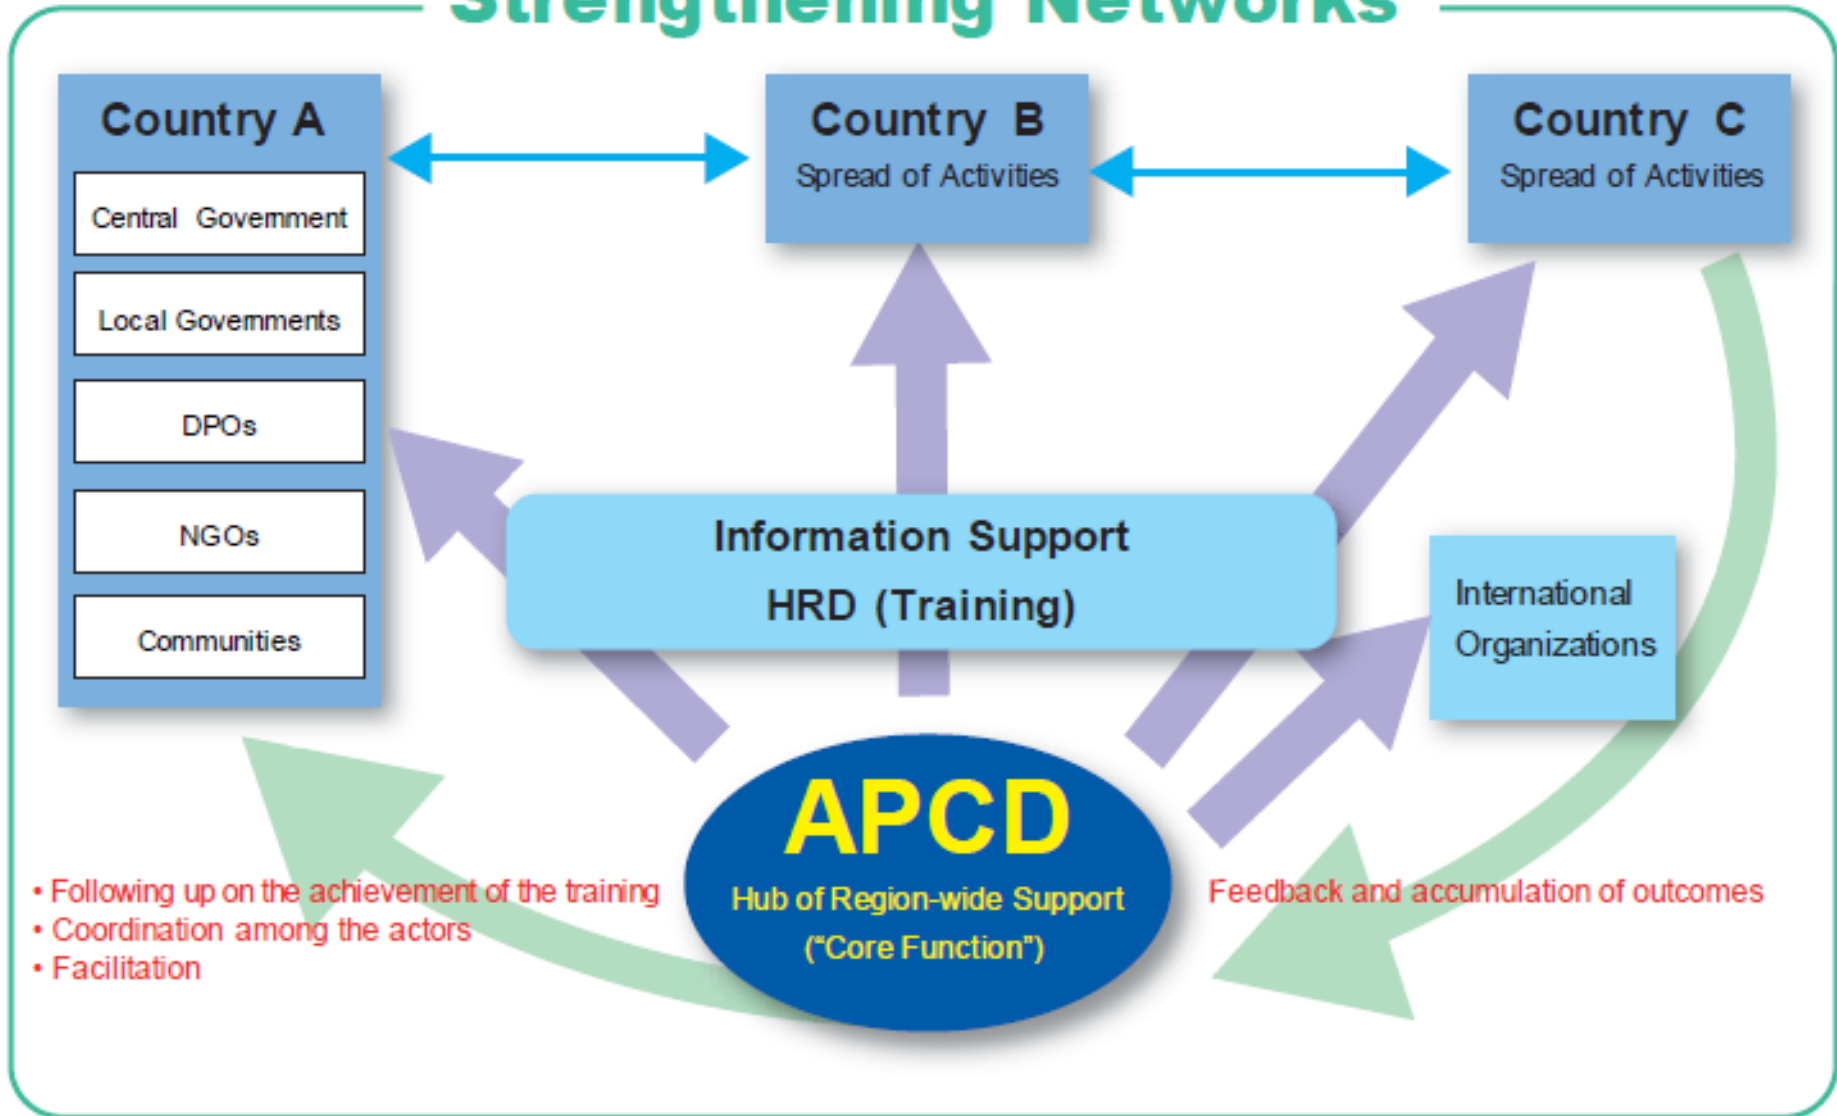

III. Case Study 2 (APCD)

APCD = Asia-Pacific Development Center on Disability

- JICA established APCD and collaborated with them since 2002.
- APCD signed MoU with 33 countries and developed the network with 200+ organizations.
- APCD was strengthened as the international and national networking Center.

APCD's regional networks

Strengthening Networks

IV. Key Messages

South-South Cooperation is more effective when:

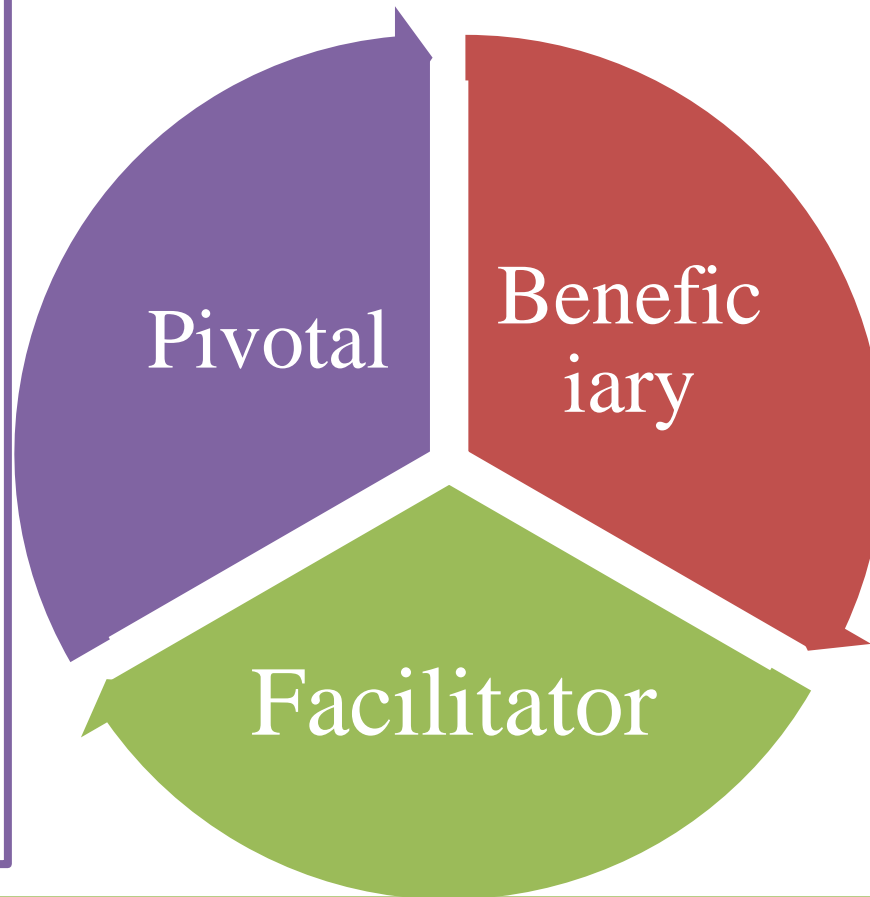

- ✓ Initiated by demand-driven (owned and led by beneficiaries).
- ✓ All stakeholders make long-term commitment.
- ✓ Southern partners provide home-grown solutions and experiences.

Triangular Cooperation can add value by:

- ✓ Facilitating knowledge-sharing and mutual-learning.
- ✓ Leveraging its network with Centers of Excellence (CoEs).
- ✓ Promoting more inclusive multi-stakeholder partnership.

Roles of each stakeholders

- (1) Apply valuable home-grown knowledge.
- (2) Coordinate with other stakeholders through development cooperation agencies and/or regional cooperation.

- (1) Own and lead the whole program.
- (2) Coordinate and prioritize various projects in line with national development priorities.

- (1) Match resources and CoEs from various parts of the world
- (2) Facilitate knowledge sharing and mutual learning
