Benefits gained by the Philippine Statistics Authority on participation and engagement with Global / Regional Experts Groups

Enhanced capacities through knowledge shared on best practices, recent methodologies, researches, e.g. ecosystem.

Gained insights & guides on how to develop statistical programs & define implementation strategies for new statistics e.g. MST, disaster.

Established partnership and cooperation for technical assistance and training including financial support.

Served as opportunities participate on testing new framework, statistics, etc.
Philippine Participation in Global and Regional Committees in Environment and Tourism Statistics / Accounts

- Committee on Tourism Statistics and Tourism Satellite Accounts
- Working Group on Measuring Sustainability of Tourism (UNWTO)
- Committee of Experts on Environmental and Economic Accounting
- Committee of Experts on Environmental Statistics
Collaboration, Dissemination and Advocacies

Engage users to help define priorities on what accounts and specific indicators to be highlighted (users from governments, private associations, academe, etc.)

Serve as source of data, statistics and information to support the framework, accounts etc.

Encourage to draw specialists or experts coming from other disciplines, academe, etc. to assist in developing emerging statistics e.g. ecosystem, digital, disaster, ocean, etc.

Act as partners to advocate and popularize the accounts as well as its actual uses and applications
Philippine Development Partners for Accounts
