<thead>
<tr>
<th>Urban Demography, Social Cohesion and Equity</th>
<th>Urban Infrastructure Housing, and Basic Services</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Increasing of urbanization</td>
<td>• ensuring that the public can obtain affordable urban basic services;</td>
</tr>
<tr>
<td>• Bonus Demographic;</td>
<td>• improve national connectivity and making integration;</td>
</tr>
<tr>
<td></td>
<td>• encompasses services such as health, education and recreation to increase the quality of life;</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Urban Ecology and Spatial Development</th>
<th>Urban Economy and Urban Framework</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Degradarion of carrying capacity;</td>
<td>• Middle income trap;</td>
</tr>
<tr>
<td>• Increasing vulnerabilities to disasters;</td>
<td>• Reducing the gap between provinces across regions;</td>
</tr>
<tr>
<td>• Land conversion;</td>
<td>• eliminate the income gap and improve the standards of living;</td>
</tr>
</tbody>
</table>
Key Elements to Form Sustainable Development

1. Urban Rules and Regulations
2. Urban Planning and Design
3. Urban Finance
1. Land and Urban Planning

1. Control large-scale landholdings and land speculation;
2. Vertical building development;
3. Reduce mobility by allocating land uses;
4. Inclusive urban planning;
5. Adopt urban kampungs;
6. Develop a harmonious relationship between the government sector, the private sector, and society;
7. Develop a maritime-based coastal city which can anticipate potential of tsunami and sea waves;
2. Urbanization and Economy

1. Improve the quality of human resource;
2. Stimulate urban investment and economic activities in sectors that have not been fully developed;
3. Improve regional financial governance through capacity building;
4. Improve fiscal governance with certain tax transfer;
5. Open cities for the global market;
6. Strengthen the role of urban kampung as the place for local economic development;
7. Conduct a development program in safe and secure working environment especially in informal sector;
8. Establish strategies in providing job to cope with urbanization;
3. Urbanization, Social and Demography

1. Improve the national demographic information system;
2. Build and develop a comprehensive database system of migrants;
3. Support and develop the Urban Youth;
4. Provide integrated urban-rural population policies;
5. Minimize the disparity in social and economic;
4. Urbanization and Environment

1. Manage an integrated coastal areas and small islands for the sustainable use of marine resources;
2. Implement ‘Green City’ concept;
3. Expansion of green open space and forest areas;
4. Compose national standard to measure the impact of climate change to the environment;
5. Improve local government capability in mitigating climate change;
6. Continue the public campaign and socialization of natural disaster including evacuation mechanism and self-preservation;
7. Encourage local government to compose environmental database;
8. Support the concept development of threshold limit value in air, water, land, and forest pollution;
5. Urbanization and Governance (1)

1. Formulate of the new law on land, including the law of land ownership, reclamation land, and floating settlements;
2. Conduct land mapping validated by public participation and involvement of local communities;
3. Improve institutional capacity by providing legal certainty on the status of collective ownership;
4. Apply democratic principles and rules of law by protecting equal rights;
5. Encourage the transparent and accountable financial system through e-budgeting, e-monitoring, and e-government;
6. Support local government to organize land, building, and infrastructure assets;
5. Urbanization and Governance (2)

7. Provide clear legal framework and governance system;
8. Set measurable targets to urban governance to meet the standard of ‘urban service performance’;
9. Adopt innovative model for the development of ‘smart city’ model through the integration of programs;
10. Increase partnership and co-operation among cities and regions within the country supported by standard operational procedure in the financial planning;
11. Provide updated data and information of urban areas;
12. Implement consistency in spatial plan and disaster map;
13. Implement good governance from local to state government;
14. Increase the involvement of stakeholders in urban development through urban forums;
6. Housing and Basic Services

1. Create the alignment of housing development with the urban settlement improvement;
2. Support the special role of urban *kampung*;
3. Take high priority to improving the capacity and readiness of local government in slum upgrading programs;
4. Give priority to housing and infrastructure financing facility;
5. Improve the effectiveness of affordable rental apartments;
6. Priority to land preservation to ensure the quality of raw water;
7. Innovate technology in water infrastructure;
8. Integrate cross-sectoral policies;
9. Improve the effectiveness of infrastructure asset management;
10. Implement the Transit Oriented Development (TOD) concept;
11. Develop mass transportation system;
12. Strengthen the local wisdom;
