HANOI PLAN OF ACTION ON STRENGTHENING ASEAN ECONOMIC COOPERATION AND SUPPLY CHAIN CONNECTIVITY IN RESPONSE TO THE COVID-19 PANDEMIC

June 19 2020

This Plan of Action implements the Declaration of the Special ASEAN Summit on the Coronavirus Disease 2019 (COVID-19) adopted by the ASEAN Heads of State/Government at a Special ASEAN Summit on 14 April 2020, in particular, the mandate to implement the ASEAN Economic Ministers' Statement on Strengthening ASEAN's Economic Resilience in Response to the Outbreak of COVID-19, issued on 10 March 2020, and to explore a temporary arrangement to preserve supply chain connectivity during the duration of the COVID-19 pandemic.

This Plan of Action demonstrates ASEAN's determination to work closely to identify and address trade disruptions, with ramifications, on the flow of essential goods, including food, medicines, and medical and other essential supplies in the region. This is part of concerted efforts to not only contain and mitigate the economic impact of the COVID-19 pandemic on the region but also to strengthen supply chain connectivity to make supply chains more resilient
