Preparatory stage during the Covid-19 pandemic

- ❖ The Azerbaijani government has taken a number of preventive measures since the beginning of the spread of the new coronavirus disease in the world.
- ❖ First of all, in order to prevent the threat of COVID-19 in the territory of Azerbaijan, the Operative staff consisting of the heads of relevant government agencies and institutions was established under the Cabinet of Ministers.
- ❖ For taking preventive measures and monitor all areas of the Republic of Azerbaijan, The Expert groups consisting of relevant specialists were organized.
- ❖ In order to prevent the spread of new coronavirus disease in the Republic of Azerbaijan , the "Action Plan was approved and started to implement by the order of the Cabinet of Ministers on January 30, 2020.
- ❖ Appropriate steps have been taken to strengthen medical awareness and prevention measures among the population about the virus and methods of combating it.

Next Steps for Combatting Covid-19

- ❖ Educational materials prepared and published on the basis of the recommendations of the World Health Organization were distributed to enterprises, departments, organizations and regions.
- ❖ The "Check Yourself for Coronavirus" program was developed and made available to the public in a short time. The purpose of the program was to help people decide to seek appropriate medical care.
- ❖ The information portal of the Operational Headquarters were created for giving regular information about the situation in the country.
- ❖ A mobile application "E-DOCTOR" was created to help reduce the spread of coronavirus pandemic.
- ❖ According to the relevant instructions of President Ilham Aliyev, modular Hospital complexes and quarantine zones have been established in the country.
- ❖ Due to the importance of developing the knowledge and skills of health workers and medical professionals in this area, the Ministry of Health organized video conferences with the participation of international and local experts.

The situation in the country due to Covid-19

- ❖ 917,027 tests were conducted.
- ❖ 36,309 people were infected with coronavirus
- ❖ 33,703 of them were treated and recovered

- ❖ 531 (1.5% of the number of infected) people died
- ❖ The number of active patients is 2075 people.

Thank you for your attention!
