

SPECA Working Group on Innovation and Technology for Sustainable Development (webinar)

Participating countries: Afghanistan, Azerbaijan, Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan

30 July 2020

WEBINAR EVALUATION

- Evaluation questionnaire was comprised of 9 questions with response marks options ranged from 0 to 5 and aimed to get feedback from participants on the clarity and applicability of webinar topics, effectiveness of webinar structure and clarity of online platform usage and interpretation. Total 11 response has been received.
- 100 % of participants responded (rated 4 and higher) that activities delivered during the webinar were efficient and enhanced their knowledge, capacity and highly assessed the clarity of interpretation.
- 90% noted (rated 4 and higher) that time for available for interventions during the e-meeting was adequate,
- More than 90% of respondents highly assessed the sessions on Country perspectives and feedbacks. Opening and Closing session, and the session with the Key-note presentation are also among highly assessed.
- Meanwhile about 27% of the respondents were lacking (rated 3 and below) the good technical guide on KUDO platform, and about 20% were not satisfied with the clarity of the interactive reflections.
- The highest scoring of 4,73 (out of 5 maximum), were received on Q49 “The activities delivered during the webinar were efficient and enhanced my knowledge and capacity”, Q51 “The clarity of the Opening session”, Q55 “The clarity of the Closing session” and Q56 “The clarity of the Interpretation”.
