Poverty Reduction-The Progress

From the end of 2015 to the end of 2018, the number of people living in poverty in rural areas decreased from 55.75 million to 16.6 million, poverty incidence dropped from 5.7% to 1.7% and per capita disposable income of rural residents in poverty-stricken areas increased from RMB 7,653 to RMB 10,371.

Precise Poverty Alleviation

Table 1. Alibaba supports poverty alleviation (at the end of 2018)

Main Indicators	Achievements
Number of rural e-dealers	More than 1 million
Annual turnover	RMB 161.175 billion
Number of Taobao villages	3202
Number of villages engaged in the rural Taobao project	30,000 villages in over 1000 counties
Number of Taobao helpers for rural population	More than 60,000
Number of agricultural brands	160

Table 2. Results of the bread-earner health project

Main indicators	Results
Number of individuals and business firms that have made donations	360 million individuals and 1.12 million business firms
Funds raised	RMB 136 million
Scope of implementation	66 poverty-stricken counties in 12 provinces and autonomous regions/prefectures
Funds used in the public welfare undertaking	RMB 120 million
Number of beneficiaries/person times	3,635,399/4,253,775

Next Step for Poverty Reduction

- First, there are still pockets of deep poverty affecting large populations and with weak infrastructure.
- The second priority is to further strengthen the safety-net function.
- The third priority is to increase international exchanges and cooperation in poverty reduction, share experiences with other developing countries and deepen practical cooperation, thus making positive contributions to the global zero-poverty sustainable development goal.
