

Contribution of Mongolian human rights NGOs in the implementation of SDGs

Urantsooj Gombosuren,
Centre for Human Rights Development

Building capacity of CSOs for mainstreaming Human Rights into development policies

- Connecting UPR – 2 cycle recommendations with relevant SDV 2030 targets and Government Action Program for 2016-2020 and defining expected results with possible indicators to evaluate progress in the implementation. 2016

Building capacity of CSOs on SDGs and organizing for effective contribution.

- Training organized by ADA
- Meetings, facebook:TX3 6a ИНБ /SDG&CSO/-Mongolia

Mainstreaming Human Rights into SDGs

- Defining HR issues relevant to SD goals and targets and informing public through press conference and public meetings

Localizing SDGs

- Through HR day events we our community groups at aimag and soum level contribute awareness raising of SDGs.
- Capacity building training
- Workshops for establishing and facilitating local partnership for SDG implementation lead by community group leaders.

Bayandun soum

Population around 3000,
85% buriad ethnic people.

Next steps

- Our local working groups will define one-two important decisions on their selected SDGs to be made by local government or local citizens' khural.
- They may use for this to request conducting public hearing, using this newly adopted law on public hearing or any other relevant laws.
- On this we provide with some advice and guidance.
- Joint consultation of all 3 working groups in UB inviting relevant ministries and agencies and reports will be delivered for a working group to be set for drafting VNR report.

Next steps

- We want to continue until 2030, expand our activities, networks involving CSOs working in other sectors: environment, development, trade unions, cooperatives and so on.
- We have quite good legal environment for engagement but not that good economic/financial support.
- To make human rights based approach as real practice.
