*..... a Massive Process of Online and Offline Consultations as well as to include 48 best practices from state and non-state actors*

# The Way Forward

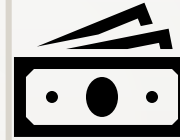

- Promoting inclusive and sustainable economic growth;
- Strengthening connectivity and maritime sector;
- Enhance added economic values and employment creation in various sectors.

- Advance bureaucracy reforms towards a more accountable and transparent governance by adopting information technology.

- Enhance quality of human capital by reducing poverty;
- Increase access to quality basic services, including quality education at all levels.

- Ensure adequate funds to achieve SDGs through new and innovative financing mechanisms.

- Concrete action on low carbon development initiatives that aligns with Paris Agreement by mainstreaming low carbon development planning to achieve sustainable economic growth.

Ensure inclusive process, transparency and accountable mechanism obligation in implementing SDGs
