HIGH-LEVEL POLITICAL FORUM
ON SUSTAINABLE DEVELOPMENT

VOLUNTARY NATIONAL REVIEWS

What are the 5 Ps?

The product of numerous consultations and deliberations, the 2030 Agenda is an aspirational plan of action for people, planet, prosperity, peace, and partnership: the “five Ps” that shifts the world onto a sustainable and resilient path for global development up until 2030

VOLUNTARY NATIONAL REVIEWS

Working Group Break-out Session 1

All Workshop participants split in to 5 Groups which align with the 5 Ps

Try to have equal numbers of people in each group

State SDG Focal Points move around each group to support this exercise

STEPS for each Working Group

1. Identify the key thematic areas discussed within the “P”
2. List all “key issues/challenges” identified within each thematic area
3. Where relevant, group stories, so the stories make more sense
4. List all “initiatives” being adopted, either at State or National level to address those “key issues/challenges”
5. Decide what stories are best being told at the State level and those best told at the National level
6. Populate the DRAFT VNR Report outline with a brief sentence of two for each story selected
