## MARKET ANALYSIS TOOLS

Enhancing the transparency of global trade and market access

- About the tools ▶
- Tutorials ▶
- Condition of Use ▶
- Trade Map Factsheets
- MAT Surveys ▶
- Newsletters NEW ▶

The International Trade Centre has developed five web portals: Trade Map, Market Access Map, Investment Map, Trade Competitiveness Map and Standards Map to enhance the transparency of global trade and market access and to help users in their market analyses.

Since the 1<sup>st</sup> January 2008, all users from [least developed and developing countries and territories](#) have been able to access the ITC's market analysis tools (MAT) free of charge, thanks to support from the world Bank, the European Commission and donors to ITC's Trust Fund. From the 1<sup>st</sup> October 2013, users in developed countries have also free access to most of the data in MAT.

Market Access Map can help you if you are:

- A company involved in exporting or importing
- A trade analyst or researcher
- A trade negotiator

Market Access Map provides six modules for retrieving, analysing and downloading information on tariffs, trade and non-tariff measures (market requirements). To start, click on the link below to access Find tariff sub-module or use the menu above to access other types of data.

**>>> [START USING MARKET ACCESS MAP NOW](#)**

### Information included:

Market Access Map offers current and historical data on:

- General, MFN and preferential tariff rates applied by 196 countries and territories
- Applied tariff rate quotas, including quota contingents and administration methods
- Trade remedies including antidumping, countervailing and safeguard duties
- Rules and certificates of origin
- Other non-tariff measures (market requirements), e.g. technical requirements and conformity assessments
- Final bound tariffs of WTO member countries
- Yearly export and import trade flows

Proceed >>

**Note on the language:** When the data is selected at the National Tariff Line (NTL) level, the product descriptions are shown as reported by the country. As a result, for some countries, the descriptions of the products at the National tariff line level are not available in English. In this case, users are advised to select a corresponding product at the Harmonized System (HS) 6-digit level. At this level the products and descriptions are harmonised across countries and are always available in English.

\*Indicates mandatory fields.

# WITS

An integrated platform to access  
trade and trade policy databases

## What does WITS offer?

- WITS gives access to **trade and tariff** related statistical information
- WITS calculates some **trade indices** at for a country
- WITS includes **a partial equilibrium simulation tool** and **data analysis tools**

## Data coverage in WITS

Database	Data	From	Reporting Countries	Details
UN COMTRADE	Imports/Exports	1962	219	HS 6-digit and SITC 5-digit
UN CTAD TRAINS	Imports	1988	70	National tariff line (NTL)
	Tariffs	1988	172	NTL
	NTB	1992	97	NTL
WTO IDB	Imports	1996	111	NTL
	Tariffs	1996	140	NTL
WTO CTS	Bound Tariffs	1995	137	NTL

The following table shows the nomenclature used for recording data in the major trade and trade-barrier databases of World Bank and partner organizations.

Database	Nomenclature
UN COMTRADE	SITC from 1962-1988 and HS since 1988. However, some countries still use SITC to report trade information to UN COMTRADE.
UNCTAD TRAINS	HS
WTO IDB	HS
WTO CTS	HS

The following table lists the available nomenclature classifications:

Classification Type	Classification Name/Version
Standard	Four HS classifications—H0, H1, H2, and H3
	Four SITC classifications—S1, S2, S3, and S4
Industry	International Standard Industry Classification (ISIC)-1 and ISIC-2
National Income Accounts	Broad Economic Categories (BEC)
Others	WTO Multilateral Trade Negotiation (MTN)
	Standard Industrial Classification (SIC)
	Global Trade Analysis Project (GTAP)
	HS Combined nomenclature (combines all current and historical revisions of HS)

The **World Integrated Trade Solution (WITS)** is a software developed by the World Bank, in close collaboration and consultation with various International Organizations including United Nations Conference on Trade and Development (UNCTAD), International Trade Center (ITC), United Nations Statistical Division (UNSD) and World Trade Organization (WTO).

WITS gives you access to major international trade, tariffs and non-tariff data compilations:

- The **UN COMTRADE** database maintained by the UNSD;
  - Exports and imports by detailed commodity and partner country
- The **TRAINS** maintained by the UNCTAD;
  - Imports, Tariffs, Para-Tariffs & Non-Tariff Measures at national tariff level
- The **IDB** and **CTS** databases maintained by the WTO.
  - MFN Applied, Preferential & Bound Tariffs at national tariff level

WITS is a data consultation and extraction software with simulation capabilities.

WITS is a free software. However, access to databases themselves can be fee-charging or limited depending on your status.

WITS is a system that is still evolving and we will be adding more features. In subsequent releases of WITS we plan to provide additional features including coupling with ITC's MACMAP system.

## STATISTICS

## Integrated Trade Intelligence Portal (I-TIP)

Improving the transparency of trade policy measures

The Integrated Trade Intelligence Portal (I-TIP) provides a single entry point for information compiled by the WTO on trade policy measures. Containing information on over 25,000 measures, I-TIP covers both tariff and non-tariff measures affecting trade in goods as well as information on trade in services, regional trade agreements and the accession commitments of WTO members. Its aim is to serve the needs of those seeking detailed information on trade policy measures as well as those looking for summary information.

> [Feedback on this page](#)  
Please contact [I-tip@wto.org](mailto:I-tip@wto.org)

> See also:  
[Economic research and analysis](#)

Information note:  
> [I-TIP](#)

### Trade in goods

I-TIP Goods provides comprehensive information on non-tariff measures (NTMs) applied by WTO members in merchandise trade. It includes members' notifications of NTMs, such as technical barriers to trade, sanitary and phytosanitary measures, and anti-dumping and countervailing measures, as well as information on "specific trade concerns" raised at WTO committee meetings.

> [Go to I-TIP Goods](#)

I-TIP also provides a direct link to the WTO's extensive tariff and trade

### Trade in services

This integrated database – a joint initiative of the WTO and the World Bank – consists of information on members' commitments under the WTO's General Agreement on Trade in Services (GATS), services commitments in regional trade agreements, applied measures, and services statistics.

## I-TIP Goods: Integrated analysis and retrieval of notified non-tariff measures

I-TIP Goods provides comprehensive information on non-tariff measures (NTMs) applied by WTO members in merchandise trade. The information includes members' notifications of NTMs as well as information on "specific trade concerns" raised by members at WTO committee meetings. Its aim is to serve the needs of those seeking detailed information on trade policy measures as well as those looking for summary information. It includes links to the WTO's extensive tariff and trade databases, and to the DocsOnLine system.

Choose one of the following options:

### GRAPHS over TIME

- You can see and select the flows or the stock of Non-Tariff Measures (NTMs), in-force or initiated by type of measure.
- See individual measures by simply clicking on any bar in the graphs!
- This option does not allow affected-country or product selection

Product description	NTMs
500 - Measures without HS code	1000
501 - Live animals and products	1000
502 - Vegetable products	1000
503 - Animal and vegetable fats, oils and waxes	1000

### TABLES by PRODUCTS

- Look at the incidence of NTMs by HS sections and chapters, and by country imposing the measure.
- See individual measures by simply clicking on any number in the tables!
- This option does not allow affected country selection.

Member	Region	NTMs
USA	North America	1000
EU	Europe	1000
Japan	Asia	1000

### TABLES by MEMBERS

- Look at the incidence of NTMs by WTO member and geographical regions.
- See individual measures by simply clicking on any number in the tables!

NTM	Country	Product	Measure	Effective Date	Expiry Date
1000	USA	Live trees and other plants	Phytosanitary measures	2000	2000
1000	EU	Measures on live animals	Sanitary measures	2000	2000

### DETAILED QUERY

- Select any combination of the five criteria: type of NTM, dates, country imposing, country affected, and product. Get tabular listing of NTMs.
- Drill down for additional details.
- Export summary and detailed NTM information.

### WHAT IS AVAILABE NOW

- NEW! Agriculture Special Safeguards information!
- TBT and SPS data are fully synchronized with their respective online reporting systems; same than Specific Trade Concerns (STC) data.
- Antidumping and Countervailing measures cover all measures initiated and/or with final duties in force as of 2001

### To be added in 2014

- Import licensing
- Quantitative restrictions
- Agricultural notifications

# Participation in Regional Trade Agreements

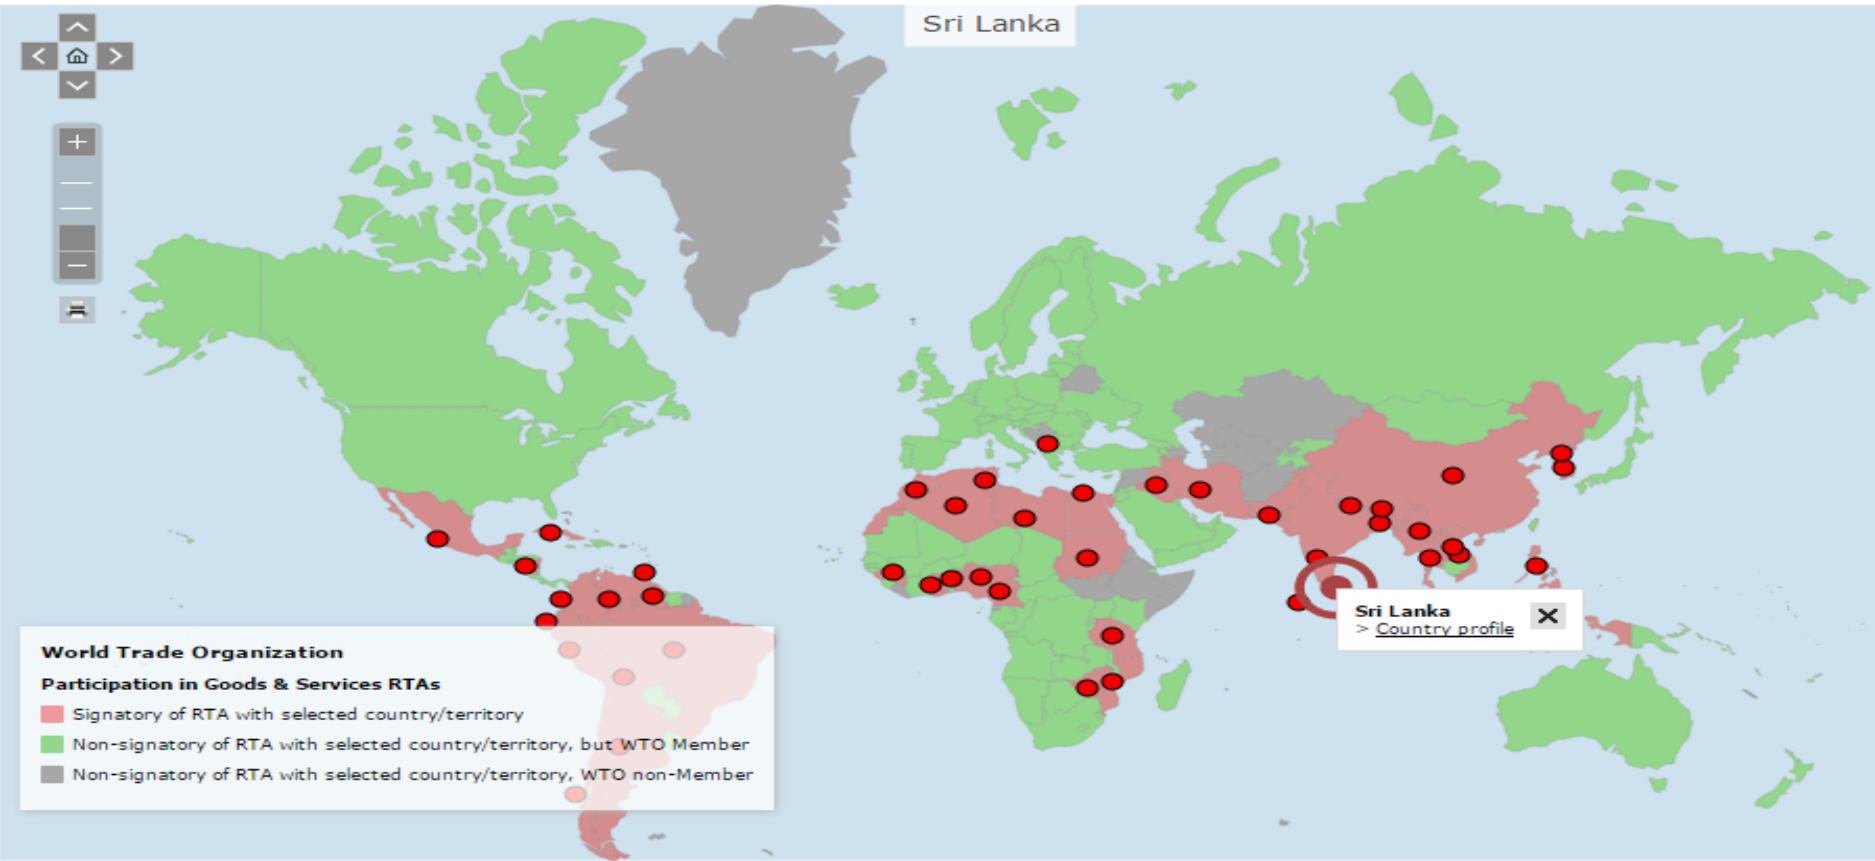

Click on a country or territory on the map to see its participation in Regional Trade Agreements for the following sectors:

- ☒ Goods and Services
- ☐ Goods
- ☐ Services

**Submit**

You can alternatively select a country or territory from this dropdown menu:

**Note:** WTO statistics on RTAs are based on notification requirements rather than on physical numbers of RTAs. Thus, for an RTA that includes both goods and services, we count two notifications (one for goods and the other for services), even though it is physically one RTA.

# Welcome to

SERVICES  
SERVICES  
SERVICIOS

I-TIP Services is a joint initiative of the World Trade Organization and the World Bank. It is a set of linked databases that provides information on Members' commitments under the WTO's General Agreement on Trade in Services (GATS), services commitments in regional trade agreements (RTA), applied measures in services, and services statistics.

## GATS

The module on GATS contains information on the Members' market access commitments and exemptions to the obligation of most-favoured-nation (MFN).

[More...](#)

## RTA Commitments

The RTA module allows to access and search for information on Members' commitments in regional trade agreements notified under Article V of the GATS. Currently, the database covers a good proportion of services RTAs ( [see list attached](#) ). [More...](#)

## Applied Regimes

The Applied Regimes module provides information on applied measures affecting access to markets and conditions of operation by foreign service suppliers. [More...](#)

## Statistics

The Services Statistics module accompanies the GATS, RTA and Applied regimes modules by providing relevant trade in services and related statistics.

[More...](#)

It presents available information on WTO Member's resident-nonresident services trade flows (for selected service sectors and when possible by partner), statistics on foreign establishment of firms (activities of foreign affiliates and foreign direct investment in service industries), as well as market information of members (production, employment and sector specific monetary and non-monetary indicators). This information is provided in a standardized format for each Member and provides a valuable set of services statistics for users of I-TIP Services.
