*Session 3. North-East Asia partnership for implementing SDGs*

# Multi-stakeholders, Multi-layered Partnerships

28 September 2017

Dr Sojin Lim

University of Central Lancashire

# SDGs at a Glance

---

- Truly Global!
- High ambition (allow domestic groups to use international norms and frameworks for leverage to generate change)  
  
+ Non-binding nature
- Global public goods + National obstacles
- Development + Climate

- More Numerous, More Complex, More Difficult to describe, implement and monitor (Theory of Change)
- “Promising everything to everyone gives us no direction. Having 169 priorities is like having none at all.”
- \$135 to \$195 billion per year for the eradication of poverty
- \$5 to \$7 trillion per year for infrastructure investments
