- Development of national indicators
- Development of additional indicators

MATRIX OF indicators

Support to line ministries and agencies
- Consultations by NSO\MOE\MFA

Explore needs in technical\methodological support
Explore needs in capacity development
Explore needs in development of new indicators
Explore availability of the indicators

Needs in technical and methodological assistance
Results of the inventory and adaptation of SDG goals and targets

• Global SDG targets
  - 169

• Adopted as relevant to national and global
  - 93

• Adapted (reformulated) to national conditions
  - 61

• Not relevant
  - 15
National capacity to produce SDG indicators

- В ожидании: 0
- Не представляется возможным даже с большими усилиями: 18
- Реализуемый с большими усилиями: 93
- Легко выполнимо: 56
- Доступен на данный момент: 39
- Неприменимые: 26

Current: 46%
Sources of data to produce it easily and available

Dependence to produce data from external sources

[Bar chart showing percentages for sources:
- Statistical: 46%
- Administrative: 51%
- Mixed: 3%]

[Bar chart showing levels of dependency:
- Low: 79%
- Moderate: 15%
- High: 6%]
National capacity by SDG goals and targets

**High capacity to produce SDG related indicators:**
- SDG 3: Обеспечение здорового образа жизни и содействие благополучию для всех в любом возрасте
- SDG 9: Индустриализация, инновации и инфраструктура
- SDG 17: Партнерство в интересах устойчивого развития

**Low capacity to produce SDG related indicators:**
- SDG 6: Чистая вода и санитария
- SDG 8: Достойная работа и экономический рост
- SDG 12: Обеспечение перехода к рациональным моделям потребления и производства
Where we are to produce SDG related indicators?

- Metadata
- Data
- Capacity building
- Communications
- NRP

37 SDG indicators
- Data on disabilities
- National SDG indicator
- 16 SDG related indicators
- Sectoral statistics
Key challenges to monitor SDG related indicators

- Reporting mechanism
- Data exchange and dissemination
- Disaggregation
- Build a capacity

- 101 SDG global indicators or 44.8%;
- 67 National SDG indicators or 44.6%;
- 75 additional national indicators or 46%.
