

Missions Specific objectives

- S1. To enhance knowledge of ICF-based disability assessment and eligibility rules among MLSA's policy makers and staff.
S2. To improve the disability assessment and the information collection mechanisms, based on ICF standard and best international practices.
S3 To study best case practises by other states (study visit at Cyprus)
S4. To create awareness on the necessity to adopt a change management approach in order to prepare the information of both the professionals and the public about the newly adopted ICF approach to disability assessment and eligibility rules.

ALGORITHM hearing

The sum of **15 selected** crucial codes in each category is computed. The sum can be divided by the maximum score and produce a proportional score.

Hearing protocol **pool (24)**

total of crucial b codes -1

total of crucial s codes -1

total of crucial d codes -22

Total number of **selected codes** (b,s,d):
