18 Offices globally

159 Owned & Operated vessels

2,962 Port calls

Trading in 99 countries

233 Commodities

Fleet Capacity of 7.14 Million DWT

23 million mt per annum
"As a group we should **always seek to be ahead of legislation rather than reacting to it**: that even if the environmentally “clean” way of doing something is more expensive and therefore on the face of it uneconomic, we should always, regardless of mandatory legislation, have a close look at the overall feasibility of adopting such a **practice both from the point of view of general public good and enlightened self-interest**.

*Sir Adrian Swire, 1989*

“As the Group journeys towards its third century... new challenges will inevitably arise: alongside an abiding focus on nurturing their own staff, on practical innovation and of course on commercial viability, **our existing businesses must adapt to a world in which, quite rightly, everything that they do will be judged by its impact upon the environment and the community.**

*Barnaby Swire, Chairman of John Swire & Sons, 2015*
CNCo has been in business for over 145 years. We stood the test of time by always looking ahead and taking the right decisions for the long term. The world is facing some of the most pressing environmental challenges of our time. We are committed to being part of the solution. Because when we help the world in which we operate to thrive, so do we.

Our three focus areas:
- Thriving People
- Thriving Environment
- Thriving Communities
We are going beyond legislation, even at greater voluntary cost, from the point of view of both the public good, and enlightened self interest.
LOW-CARBON SHIPPING SOLUTIONS

PROJECT CERULEAN
to find long-term, sustainable and cost-viable solution.

Partnership with USP’s Micronesia Centre for Sustainable Transport for a research programme for a low-cost, low-carbon footprint 950grt/100dwt freighter for Pacific Islands.
WASTE MANAGEMENT AND CIRCULAR ECONOMY

“Moana Taka” Partnership
WASTE MANAGEMENT AND CIRCULAR ECONOMY

“Moana Taka” Partnership
Addressing waste management in the Pacific “Moana Taka” Partnership (as in ‘Ocean, Circulate’)

We are part of the problem: we need to be part of the solution
Disaster Relief

CNCo’s efforts in Fiji, Solomon Islands and Vanuatu were recognised by the United Nations Office for the Coordination of Humanitarian Affairs (UN OCHA), Emergency Relief Coordinator.

Marine Research

Working with CSIRO (Commonwealth Scientific and Industrial Research Organisation)
Data collection using CNCo vessels for Continuous Plankton Recorder Program and Weather Monitoring

Pro bono Shipments

Supporting charities in:
• Dili, East Timor
• Honiara, SI
• Alotau, PNG
• Tonga
• Vanuatu

Community Projects & Charities
